DISTURBANCE AMONG THE FRENCH PRISONERS

ZURICH, March 11.—The German celebration in honor of the return of peace, which began on Thursday, was disturbed by the French officers who were detained here as prisoners of war. The German Tonahalle (Music Hall) was attacked and occupied by the French, and several persons injured in the *melee*. The Swiss Federal Council at once ordered the adoption of military measures to put an end to the tumult and prevent its recurrence. The disturbances were nevertheless resumed on Friday, when the Tonahalle of the Germans was again stormed by the French, and the German flag torn to pieces. Subsequently a large number of the people of Zurich, who sympathized with the Germans, attacked the prison in which sixteen officers of the French Mobile Guard arrested on the previous day were imprisoned. The Swiss soldiers guarding the prison at once fired upon and repulsed the mob, but unfortunately killed and wounded several innocent people in a house on the opposite side of the street. The riot has been thoroughly quelled and to-day the city is perfectly quiet. Only one person was killed during the disturbances. The Federal Council has sent four battalions of infantry and two batteries of artillery from Berne to Zurich to assist in keeping the peace. Further disturbances are apprehended.

THE CAT OUT OF THE BAG.

A special from Washington to the *Evening Post*, says the administration committed itself more than six weeks ago to Sir Edward Thornton, British Minister, to bring about a change in the Chairmanship of the Foreign Relations Committee, Mr. Thornton expressing doubts as to the administration being able to get such a treaty as the High Commissioners might agree upon ratified by the Senate, so long as Senator Sumner remained at the head of the Foreign Relations Committee and entertained such views as expressed in his speech against the Reverdy Johnson treaty. While Sumner was confined to his bed statements had been published that he had prepared, and would soon deliver a speech assailing the President in the most bitter terms, and arraigning him not only for his San Domingo policy but for other acts of his administration, all of which was without a shadow of truth. The statement was made to create an impression throughout the country that Mr. Sumner was determined in opposing the administration in every way, and that it was essential to the success of the foreign policy of the administration to remove him from his position of influence and power in the Senate.

AN ALLEGED BOND THIEF.

George W. Chadwick, charged with passing a cancelled one thousand dollar government bond on Dr. Thomas Earl, of Brooklyn, was put on trial in the United States Circuit Court yesterday. Chadwick, who is said to have been a "pal" of Van Esten, who was recently sentenced, appears to have got possession of a $10,000 bond, which was originally numbered 12,813, but which was altered by counterfeiters to 12,843, and passed off on Dr. Earle as security for a loan of $10,000.

The Bremen and Hamburg Steamship Companies have both established lines for transportation of emigrants direct to Aspinwall; then to connect with lines in San Francisco. The first steamer from Bremen leaves this week. A report that arrangements have been made to transport fifty thousand Germans to Oregon proves to be nothing more than a flying rumor.

SMALL POX HORRORS.

The occupants of a tenement house in which small pox patients were confined, at Long Island city, attacked a carpenter building a frame outhouse, but with the aid of the police the infected locality was soon shut in from the outside world. Burns died soon after from internal hemorrage. Connelly when disarmed said he committed the deed because Burns had been trying to poison him for six months. There was no acquaintance whatever between the men. Burns was formerly postmaster at Syracuse Mo., and had been convicted of abstracting drafts, &c., from letters. He was head waiter of the prison and was dispensing bread to the convicts at the time of the murder. Connoly was formerly a laborer on the North Missouri Railroad and about two years ago killed the wife of the section boss under whom he was working for the alleged reason that she tried to poison his coffee. He was tried and condemned to be hung, but in consequence of his strange conduct indicating mental derangement, the sentence was commuted to imprisonment for life.

The Dominion Budget.

[By Telegraph to the Pittsburgh Gazette.]

OTTAWA, ONT., March 11.—The Minister of Finance introduced the budget to the House, stating that Canada now stood eighth, instead of eleventh, as last year, in the list of countries trading with England, taking, in proportion to her population, more goods from England than any other country in the world, and three times as much as America. He looked for a surplus of $300,000 next year. Notwithstanding this prospect, he warned members not to expect any large reduction in taxation. He consented to take off five per cent. of the duties imposed last session, but the duties on flour and coal must remain. IMPORTANT REPUBLICAN CAUCUS.

The Republican members of the Senate held a caucus meeting this afternoon, to consider the advisability of prolonging the session in order to enact some measure for the better protection of life and property in Southern States. There was a long discussion upon the subject, a number of Senators taking the ground that it would be impracticable to legislate on the question without opening the door to general legislation, which is not desirable at this time. A resolution was finally adopted, for an appointment of a committee of five to confer and act with a similar Committee of Republican members. The House, in framing a bill for the protection of Southern loyalists, and to report to another meeting of the caucus next Monday, when the subject will be further considered, and a conclusion probably reached. Resolutions were offered to-day, and considerable argument was made, in favor of taking early action upon the bills to repeal the duties on coal and salt, the Cincinnati and Southern Railroad bill, and several others, but the caucus definitely decided that no measures shall be enacted this session except such as relate to the condition of the Southern States.

of the United States in full enjoyment of their right, persons, liberty and property, against Ku-Klux outrages. Such offences are regarded as, and will be declared violations of the Constitution of the United States, and therefore the President will be authorized to employ the land and naval forces in certain cases for the purpose indicated, although no measure has yet been prepared; it is supposed that it will be proposed to appoint Commissioners to take cognizance of the offences for the purpose of bringing them before the Courts. The Senate caucus resolved to legislate only on the Ku-Klux outrages, while that of the House resolved to give such legislation the preference over all other subjects. There is a disposition on the part of some Republicans to adjourn without any legislation whatever. The Democrats will oppose all measures in relation to the South.

BRITISH HOSTILITY TO SUMNER DENIED.

There is authority for denying the truth of alleged disclosures telegraphed from this city yesterday, purporting to represent the British Minister as having exprrssed to the Secretary of State an opinion adverse to the retention of Mr. Sumner on the Committee on Foreign Relations. No conversation or allusion to the subject has ever passed between Sir Edward Thorton or either of the members of the British Commission and Secretary of State. Neither of them has ever intimated to the Secretary any desire for a change in any of the Committees.

MEXICO.

Cost of the San Luis Rebellion—American Citizens to be Protected—Governor of Jalisco Deposed—Ill-treatment of American Citizens, &c., &c.

[By Telegraph to the Pittsburgh Gazette.]

CITY OF MEXICO, March 3.—The expenditure of the extraordinary amount of a million dollars in the secret expenses of the government is accounted for as incurred in putting down the San Luis rebellion.

Manuel Asperoz, acting Secretary of State, goes to San Francisco as Mexican Consul, matters on the Pacific coast requiring a first-class statesman in that place.

The Mexican Government promises to protect the citizens of the United States in Tehuantepec who were threatened with violence on account of their claims before the Mixed Commission.

The Legislature of Jalisco has deposed the Governor of that State.

The Governor of Oaxaca, having grossly illtreated some citizens, United States Minister has addressed the general government on the subject.

The Chamber of Commerce to-day adopted rules and regulations for the government of the provision trade, and the inspection of provisions similar to those in operation in Chicago. Hitherto there have been no definite rules for the regulation of inspection, and this change, which provides specifically for everything pertaining to the subject, is regarded with much favor by the dealers here.

The impression prevails here that Governor Cox will decline the Presidency of the Agricultural College, to which he is called.

It is reported that the Pennsylvania Railroad is considering the propriety of finishing the tunnel partially made here years ago, in order to accommodate itself to the change in the bridge, made necessary by the act of Congress.

The funeral of Ebenezer M. Spencer of *The Times* occurred to-day, and was largely attended.

ALBANY.

Escape of Jail-Birds—The Filkins Case.

[By Telegraph to the Pittsburgh Gazette.]

ALBANY, March 11.—Three men confined in the jail here on a charge of burglary made their escape this morning. Some persons furnished them with a wrench with which they were enabled to remove the locks. On emerging from their cells they seized the watchman and threatened to take his life. They proceeded to make a hole in the outside wall of the jail, which they accomplished after three hours' hard work. The watchman was all the while made dumb by their threats, and witnessed their operations.

Several more witnesses were examined in the Filkins case to-day, but nothing of importance was elicited. The evidence was then closed, and the court adjourned till Monday.

[By Telegraph to the Pittsburgh Gazette.]

Hoover had been absent from home for several weeks, and on his return on the same evening discovered that Porter had been occupying his place in the family bed during his absence. Porter is a gay scoundrel, and had previously rendered two families miserable in the same town by his amours. It is hoped that he will die, but the prospect is that he will recover.

What the Protestants are Doing in Rome.

A correspondent of the *Observer* writes from Rome: I think that it can now be truly affirmed that Rome is open for the free promulgation of the Protestant religion. The noted Father Gavazzi is now here, preaching in Italian on the Sabbath and two evenings of each week. There are not, as yet, any organized Protestant churches here, but there are several well established preaching stations, some of which are well sustained. I can only speak of those where the services are conducted in English. These are the two under the auspices of the Church of England, one of the American Episcopalians, one of the Free Church of Scotland and one of the Established Church of Scotland. I have had the privilege of attending service at all of these stations, and listening to discourses by the chaplains in charge. The largest congregation is the one in connection with what is known as the "Old English Church," under the supervision of the Rev. Mr. Shadwell, who is regarded as "High Church," as is also his usual congregation, by reason of which the "New English Church" station was established, with "Low Church" tendencies. The Rev. Mr. Hamilton is the present chaplain of this congregation. The American Episcopal congregation is under the charge of the Rev. Robert J. Nevin.

The Ancient Fenians.

In the last number of *Scribner's Monthly*, Prof. Seelye has this to say respecting the ancient Fenians:

"To enter the ancient Fenian Order, every soldier must swear that, without regard to fortune, he would choose a wife for her virtue, her courtesy and her good manners; that he would never offer violence to a woman; that, so far as he could, he would relieve the poor; and that he would not refuse to fight nine men of any other nation. Every soldier must be well acquainted with twelve books of poetry, and be able to compose verses. He must also run well, and defend himself when in flight. To try his activity, he was made to run through a wood having a tree's breadth, and the whole of the Fenians pursuing him; if he was overtaken or wounded in the wood, he was refused as too sluggish and unskilled to fight with honor among such valiant troops.

"He must be so swift and light of foot as not to break a rotten stick by standing on it; able also, to leap over a tree as high as his forehead, and to stoop under a tree that was lower than his knees. Without stooping or lessening his speed he must be able to draw a thorn out of his foot. Finally he must take an oath of fidelity.

"He gives the derivation of the word Fenian from Finn, an old Irish chief."

Republican Feeling in England Ominous Signs.

In a London letter to the Cincinnati *Commercial*, Moncure D. Conway says:

The *Spectator* declares that the Republican agitation in England just now threatens to become formidable. The Newcastle *Chronicle*, the most important paper of the North, responds that in that region it is already formidable. "Hardly a tenth part of the meetings held," says this paper, "at which Republican sentiments were uttered have been mentioned in the newspapers. In Lancashire meetings have been held almost daily to denounce the Royal family and all Royal families, as leading idle, luxurious lives." The fact that six hundred thousand pounds are paid annually for the bauble of Royalty is placarded among starving laborers with terrible effect. Workingmen, who are not without able lenders, are organizing clubs to abolish the Court in all the mining districts.

The Courier Journal says: A dispatch from San Francisco tells of the burning of a "school in that city, and says "the loss is estimated at 95,000." It doesn't say 95,000 what, though we presume it was children.

THE St. Albans *Messenger* says that there is in that town a horse whose upper lip bears a heavy moustache, fully three inches in length, which parts in the middle and gracefully curls out on either side in the most approved fashion.

ORDERS for Mark Twain's burlesque biography have been received, it is said to the extent of 50,000 copies, and his publishers expect to sell 100,000. As Twain gets six cents a copy, he may consider his $6,000 for such a bagatelle rather easily made.

THE peculiar effect of fear is exemplified in the fact that Mrs. Alfred Acker having died very suddenly in Montgomery County, Pa., a hired man in the house was so afraid he might be accused of murdering her that he hanged himself in the barn.

A "BOOK WORM" writing to the New York *Evening Mail*, says that among the almost innumerable hobbles which men affect, there is probably none so singularly fascinating, and, when properly pursued, none more refining in its influences than that of bibliomania.

A COLORED Roanoke preacher traveled fifty miles to marry a couple, and when the deed was done the bridegroom protested that he did not care a cent's worth for the service he had rendered. The preacher had no money and was forced to walk all the way back again.

THE *Atlantic Monthly* argues on the question, can birds reason? Now we don't want to appear dogmatic but we do say of course they can, for in most cases as soon as a man loses his reason he becomes a ravin manaic and we know that there is many a bird that is not a raven.

HON. WM. S. WILLIAMS, a Republican member of the Ohio House of Representatives, died on Monday. His death leaves the House divided as follows: Republicans, 56; Democrats, 55, vacancy, 1. It requires, under the State Constitution, 57 votes to pass a bill through the House.

LOUISVILLE now has a paper called the *Ledger*; it is supposed to have been started by an escaped monamaniac, whose lunacy is a philological one, and who, thinking Louisville *Courier-Journal* is not cumbrous enough, hopefully looks to a future when there will be the Louisville *Courier-Journal Ledger*.

A DESPERATE fight occurred between negroes and Indians in Texas a few days since, and beside the body of one of the former were found a hundred and forty-four exploded cartridges thrown out of his Winchester, showing how desperately the negroes must have fought before the Indians killed them.

A GENEVA letter to Boston relates that Pio Nono refused to unite with other nations in 1865 in a coinage which should circulate all over the Continent; but soon after, he adopted a similar coinage of his own, 20 per cent below par, and distributed it before the fraud was piscovered, making nearly $1,000,000 by the operation.

A BRAKEMAN on an Ohio railroad, who, while in the discharge of his duties on the top of a freight car, was caught under the chin by a telegraph wire that passed across the track, and thrown beneath the cars, sustaining thereby the loss of a leg, brought suit for damages against the company, and has recovered $9,000.

EMILE DE GIRARDIN has suffered most severely by the Franco-Prussian war. SAN DOMINGO.

Our late news from San Domingo has taken a sudden turn, and the "No Annexation" party appear in such startling attitude, that we are half inclined to believe there is but little if any truth in the statements received. We do not propose to enter into any argument on the improbabilities connected with these rumors. But be they true or untrue, we have little doubt that an influence foreign to the general voice of San Domingo is at work, in exciting this disturbance. Cabral has found a convert in the shape of one Luperon, a Dominican General, who has deserted the cause of Baez and gone over to the enemy. It is not the first time such men have been discovered, but as we do not hear of him taking anybody with him, and as we have a faint idea of the gallant Dominican in cap and spurs tendering his individual services to the commander of a handful of men, we are unable to feel much anxiety, so far as this one act is concerned, about the popular desire of the San Domingo people for annexation. But we regard their desires as but a small part of the query whether San Domingo shall be annexed. Of course if they do not want annexation that should end the matter. But even if they do want it, there is much more than that one fact to be ascertained. One other inquiry that should be made is, does the United States want it?

SOUTHERN PROTECTION.

Rumor is exceedingly contradictory over the probable adjournment of Congress. It appears now, however, as if the President would send a message to Congress on Monday, relative to the Ku Klux organizations, and matters in the South. There has undoubtedly much influence been brought to bear on the President, not to send in any such message at present, for the reason that it would prolong the session of Congress, and give rise to the introduction of many bills, that would involve much discussion. On the other hand, there either are or are not loyal Union men and women in the South, suffering for the want of some protection. If these people exist—and that they do is as certain as that night follows day—they should have ample securities for their lives and property thrown around them *now*. It matters not how much debate may spring up over other matters, nor should it be a question of expense. All that is to be ascertained is, first, do these bands of midnight assassins actually exist in the Southern States, and, second, do they prey on the loyal men and women of the union. If these facts are true, then it is cowardly to talk about time, or expense, in throwing around our citizens enough protection, to secure their lives from the knife of the assassin. We hope the President will send in a Message to Congress on the subject, and we earnestly hope that it will urge severe, and immediate remedies, for these evils. Socially and politically it is necessary that they should be corrected. Not a Southern State in this Union, will return a *popular* vote at the next general election, if there is not some security offered to those who respect and serve the Government. They will return a vote, of course, but so far from it being the voice of the people, it will be the voice of the minority, who have intimidated the majority, which our Government failed to protect. Socially and politically, these evils should be corrected, or the South after the next general election, will be a spot in which no Union man can live.

We cannot turn from this subject without referring our readers to the telegrams from Columbia, South Carolina. As is perfectly natural, these long and persistent outrages have culminated in a fearful riot, which the State feels totally unable to repress, and calls on the United States for assistance. Our only wonder is, that the down-trodden, beaten and outraged Union men have not long ago risen in retaliation.

THE COMMERCIAL VERSUS THE PRESIDENT.

It is well known that notwithstanding its professed devotion to Republican doctrines, the *Commercial* has been seeking constantly for a pretext to assail the President. The reasons for its opposition to the National Executive have, on several occasions, been referred to in these columns, and it is not necessary to cite them again. We will content ourselves by saying, that if its opposition were based on purely patriotic grounds, and arose from an honest opinion in regard to the administration of national affairs, it would not be so objectionable. So far from this, it is based upon selfishness and disappointment.

Every deliberative body has a right to say who shall be its officers, and serve on its committees. But the *Commercial* could not allow the action of the Senatorial caucus, which substituted Mr. Cameron for Mr. Sumner as Chairman of the Committee on Foreign Relations, to pass without assailing President Grant in the most bitter terms, and charging him with intriguing in the matter. In its issue of Saturday it speaks on this subject as follows:

Now, that the act has been consummated under circumstances of humiliation and affront to the Senator, and in a manner which can hardly fail to excite the indignation of his constituents as well as his friends and admirers in every State, we are compelled to characterize the measure as something worse than an error of judgment. There are too many evidences of petty spite, personal ill-will and even vindictiveness in this business, to command the respect of the Republican party and the public.

Then, for the purpose of showing that this "worse than an error of judgment," this "petty spite, personal ill-will and even vindictiveness," is all chargeable to President Grant, it gives utterance to the following, the *italics* being its own:

Let no man, friend or enemy of the Pennsylvania Senator say that he was selected to fill the important place of Chairman of the Committee on Foreign Relations without consultation with the President. Sumner was removed *because* the President desired it. Mr. Cameron *could not have been chosen by the same Senators without General Grant's approbation*. This is the logical deduction, and the Administration must take the responsibility of Sumner's deposition and the appointment of Cameron.

Except in the vulgarisms of the New York *World* of last Friday, we have not seen anywhere a more malignant assault on the President than that which is contained in the short extracts given above. In the article from which they are taken, as indeed in almost every issue of the journal in which they appear, Senator Cameron is denounced as unfit for any position of honor or trust, and yet President Grant is represented as having expressed his desire that he, of all others, should be elevated to the important and responsible position of Chairman of the Committee on Foreign Relations. The natural inference which the *Commercial* leaves its readers to draw is, that neither the President nor Mr. Cameron is fit to occupy any position in the executive or legislative affairs of the nation. Not daring to come out boldly and assail the President in this stronghold of his friends, it covertly stabs him over the shoulders of one who has become the innocent object of its malignant and inveterate hate.

We have not the slightest doubt that the President is well satisfied that the name of Mr. Cameron has been substituted for that of Mr. Sumner on the Committee referred to, but the Washington correspondent of the New York *Times* shows plainly that he neither "dictated" nor "demanded the change."

But granting that Mr. Cameron was not "selected by the Senate," of its own volition, "to fill the important place of chairman of the Committee on Foreign Relations," and that "the Administration must take the responsibility of the appointment of Cameron," how will the *Commercial* reconcile this statement, with that which it has so frequently made in the face of our repeated declaration to the contrary, "that Senator Cameron had no influence with the Administration, and that he was despised and avoided by the President?" To which of these declarations does our neighbor adhere? His undying hatred to Senator Cameron impelled him to attempt to degrade him in the estimation of the people, by asserting that he was despised by the President. This assertion of the *Commercial*, as shown by its article of Saturday was gratuitous and unfounded. We knew that Senator Cameron stood deservedly high in the estimation of President Grant, as well as his fellow Senators, and the result of Thursday's Senatorial caucus is all the corroboration of our opinion that we desire.

But we wish to tell our neighbor and readers, that we know what we affirm when we assert that President Grant is incapable of cherishing "petty spite," "personal ill-will," or "vindictiveness" towards Senator Sumner or any other man, and if in any way he has signified his desire for a change in the chairmanship of the Committee on Foreign Relations, he has done it on the ground, purely, that the best interests of the public demanded it. His highest ambition is to serve his country and advance its interests.

In conclusion, we say in all kindness to the *Commercial*, you have overestimated your influence. With more than the ravenousness of a harpy you have pursued Senator Cameron for years, and sought to let out the last drop of the blood of his political life, but now "he is comforted and thou art tormented." The storm of your indignation has been powerless. He has been vindicated, according to your own showing, by the highest authority in the nation, and no one knows his worth better than the honest and upright President whom you wantonly seek to defame by charging him with cherishing "petty spite," "personal ill will" and "vindictiveness."

[For the Pittsburgh Gazette.]

THE OLDEN TIME.

IV.

If my former communications have been of any interest to your readers, I shall continue to give some descriptions of the early situation of the town,—for it was not then a city—as well as to mention the names of some persons and my recollections of places and particular locations. In this I may differ from some other persons who may have a more distinct remembrance, but I do my best and, as I intimated in my first article, *perfect* accuracy is difficult after a lapse, in many cases of three score years.

Perhaps the neighborhood of the old Fort Pitts and Duquesne, and along Penn street to the Two Mile Run may be as interesting as any other.

Near the old point brewery stood the brick building known as the *Bouquet* house and occupied by Joseph McCullough. A small portion of an old redoubt which still remains is the only vestige left of the old forts. From this to Marbury street, then known by the vulgar name of Butler's Gut, a high gravel embankment ran along Penn street, which I have little doubt was thrown up as an earthwork by the French. It may have been thirty feet high, and at the base of this hillock was a small body of water, known as the garrison pond, which was some 250 yards long and 80 to 120 broad with an average depth of from three to four feet, and there the boys used to enjoy skating as it was a safe place to practice that amusement, and in summer, as it was well stocked with minnows, the fishermen were accustomed to supply themselves with them for bait.

The space between the pond and the Allegheny river was a common ground two hundred yards or more in width, which formed a good pasture for the citizens' cows. During the war of 1812 there was a rope-walk along the bank of the river where the large cables were made for Perry's fleet on Lake Erie, by our late lamented fellow citizen John Irwin and his brother-in-law Matthias George. A few years later a ship-yard was established by Messrs Whiting, on the bank of the Monongahela between Penn and Liberty streets, which was superintended by Samuel Frisbee and his brothers Ephraim and Joseph, and on this open spot a portion of the timber was prepared for building and several saw-pits were erected where the planks were whip-sawed. In connection with this ship-yard a machine shop was built fronting on Penn street near the place where now stands the Herron foundry and machine shop. In a few years the Whiting's purchased the Cowan rolling mill, and the ship-yard was continued by the Frisbees. The last boat built there, I think, was the Jubilee, owned by Allen and Grant and launched on the 4th of July 1826.

Mr O'Hara early built the large warehouse on the corner of Penn and Water streets, occupied by Cromwell and Dobbins, and now used, I believe, by Mr. Garrard, as a malt-house. The rest of this large space, from Penn street to the river, remained vacant many years—but what a change has now taken place! The hill is leveled, the pond filled up, and the entire property covered over with dwellings and manufactories of various kinds.

Along the south side of Penn street, up as far as Marbury, there were then but two houses, one of logs, the other a brick occupied by Mr. Bell, father of the late John B. and Thompson Bell, the banker. On the east side of Marbury street was a large frame building, which still stands. It was the residence of Colonel Wilkins, and from there to Hay street was an open space, used as gardens and corn and potato patches. On the north side, above Marbury, was first, the carpenter shop of Matthew Evans, and then the brick dwelling houses, one of which was occupied by the late Magnus M Murray and the other by Captain James R. Butler, who commanded that heroic little band of soldiers known in the war of 1812 as the Pittsburgh Blues. This company was made up from among the best young men in our place, and they left a good record of their deeds. They were, in part, so far as I can recall them, John D. Davis, John Willock, Nathaniel Patterson, Samuel Elliot, John Davis Baker, Charles Weidner, E. F. Pratt, John Park, Daniel Boss, Charles Pentland, James Newman, Matthew McGee, John Diehl and others. I believe the only one now surviving is Nathaniel Patterson.

The rest of the space to Hay street was vacant and the most of it was cultivated by a very worthy and respectable Scotchman, John Cameron or as he was generally called Scotch John, who supplied the citizens with small fruits and vegetables of all descriptions; I think the wife of the Rev. Lee of Lawrenceville, is a daughter of his. From Hay street to Evans alley there was only one old log house on the south side of Penn street, standing somewhere near the site of the house now occupied by Mrs. George W. Jackson. On the opposite side were the garden lots of Anthony Dravo and David Evans. On the north side, on the corner of Evans alley, stood the stately residence of that good citizen Dr. George Stevenson, occupying one-half the square towards Pitt street; the other half of which was owned by the late Judge Samuel Roberts, who built a house upon it of which he occupied a portion for a few years before his death, after which it was purchased and completed by Mrs. Duncan, grandmother of our present John Duncan. Her garden and orchard covered all the ground back to the Allegheny river.

On the other side of Penn street more than half the square was taken up by the garden and orchard attached to the house of David Evans, afterwards the residence of Thomas Cromwell, and still later of John Burgess. On a portion of this square, and fronting on Pitt street, were some small tenements, one of which was occupied by the well-known teamster Balser Ream.

On the same side of Penn, but across Pitt street the lots were vacant until you came to two brick houses still standing, which were owned by the widow of Wm. Porter, who afterwards married Thomas Enoch, Esq. They are now owned by James Brown. At the time of which I write, they were occupied, one by the parents of Mr. John Rippey, our late worthy Wharf Master, and the other by Reuben Miller. The rest of the square was the garden of Mrs. Cecil, mother of the late Mrs. Charles Brewer.

This square, on the other side of the street, was vacant, with the exception of one old frame house on the corner of Pitt street, until the rolling mill of Christy Cowan was built, and then it filled up with dwelling houses and other buildings connected with the mill. On the Allegheny front, at the corner of Cecil's alley, stood the slaughter-house, and near it the dwelling, of Richard Sanderson, on the same ground where now stands the fine plow factory of Hall and Speer.

On the Allegheny side of Penn street, towards St. Clair there were gardens, with the exception of the ferry house and a tavern on the corner of St Clair street and the river bank owned by a Mr. Batrick. This was long before the bridges were built. On a part of this same lot a celebration and dinner were given in honor of the Pittsburgh Blues, after their return from the war; on which occasion a very serious accident resulted from the premature discharge of a cannon, with which salutes were being fired, by which a man by the name of Beech lost his arm. On the south side of Penn street towards Cecil's alley there was a row of frame building, one of which was occupied by the well known lawyer——Mountain, and another by——Long, a tanner whose tan yard was in the place where Jackman's livery-stable now stands. Then between that and St. Clair street was an old frame building, which is still standing.

This seems to be a good place to stop for the present, but in my next I shall endeavor to extend my walk to the city line. RIP.

THE ST. LOUIS WATER WORKS.

Banquet and Successful Trial of the Engines Made by the Knapp Fort Pitt Foundry.

From a very long account of the inauguration of the new engines, given in the St. Louis *Democrat*, we extract as follows:

The erection of the engines at Bissell's Point during the past year has been in charge of James G Krapp, one of the contractors, and Andrew J. Chaphe, for the past eight years one of the engineers of the Brooklyn Water Works, has had the responsible position of Engineer-in-Chief of the four engines. His principal assistant, J. F. Steele, from the same works, had the difficult task assigned him of erecting the low-service engines, while Mr. Chaphe devoted his almost entire attention to the erection of the high-service engines. That they have both been equal to the emergency no one who saw the trial yesterday can doubt. The Knapp Fort Pitt Foundry Company, by the contract, have the right to appoint all the men necessary for running the engines for one year, the city of course defraying the expense. They have already made the following appointments for the ensuing year:

Andrew J. Chaphe, chief.
John F. Steele, first assistant.
Jas. B. Martin, second assistant.

The successful completion of the work of putting up the engines and placing them in running order was celebrated yesterday by a banquet given at the high service engine house, by the Messrs. Knapp.

The following gentlemen from abroad came to the city to attend the celebration: Captain R. Prendeville, De Witt C. Cragner, J. D. C. Whitney, James A. Locke and W. H. Carter, of Chicago; William McCleary, J. M. Knapp and George A. Berry, of Pittsburgh.

Previous to the banquet a portion of the guests visited

COMPTON HILL RESERVOIR,

into which the water was entering through the main pipes. It contained seven feet of water, which was clear in appearance, but not as transparent as future supplies will be, as the dirt from the pipes was necessarily forced into the reservoir. The walls are 22 feet high, and the reservoir will hold water enough to supply the entire city for many years.

On the way to Bissel's Point, the visitors made a halt at the wine house of the

AMERICAN WINE COMPANY,

where they were met by Mr. Cook, and partook of his hospitality. Several cases of excelent "Imperial" were sampled, and pronounced fully as palatable and exhilarating as the best imported champagne. The wines of this company have an extensive reputation, and have passed muster in England, France and Germany.

After examining the low service engines on the bank of the river, the company proceeded to the high service engine house, and while there the tornado, which was so destructive in East St. Louis, spent its fury. The wind blew strongly, and a deluge of rain fell for a few minutes, but the substantial brick and stone work of the building, resting upon a solid rock, resisted the elements so stoutly that no one dreamed a hurricane was passing.

The monster engines were in motion, the machinery running as smoothly and noislessly as a clock. The fearful looking working beams, and gigantic fly-wheels, excited the admiration of the spectators, and some of the "oldest inhabitants" contrasted the power of these leviathans with the puny force of the old eight-horse engine built for first waterworks by Mr. Samuel Gaty. The smoke-stacks and buildings, designed by Mr. George I. Barnett, are excellent in every respect.

THE BANQUET.

was spread under the supervision of Mons. Pezolt, in the large room over the boiler room. There were four long tables, seating about three hundred guests, and covered with a variety of delicacies and substantials. Cook's Imperial flowed in streams almost as abundant, and far more limpid and sparkling, than the crystal fountain flowing into the clear well. Col. Joseph M. Knapp, of Pittsburgh, presided. After the viands had been discussed, Mr. A. R. Bowman, Secretary of the Water Board, called the meeting to order, and introduced

COL. KNAPP,

who welcomed the guests, thaked them for the honor conferred upon him, and concluded by offering the toast: "St. Louis: The past is but the guarantee of her future greatness and beauty."

MAYOR COLE

was called to respond. He thanked Col. Knapp for the compliment to St. Louis, a city destined to be the greatest city of the earth—a city which astonishes us by its progress, its development, its grandeur—a city of high-toned men and beautiful women—a city where all men of all nationalities can come together and partake of its prosperity. [Applause.] We meet you to-day with pleasure around this festive board. We congratulate you on the inauguration of this great enterprise, which we have seen to-day crowned with success—an enterprise which is unsurpassed by anything of the kind on the continent of America. What would St. Louis be without water—without that great river which floats our commerce and supplies our daily necessities? What would we be without water? We are obliged to supply water to our citizens in sufficient quantities for their various needs. Just in proportion to that supply will our prosperity be. Water, sir, is the greatest agent in a sanitary point of view—it is essential to life. I feel gratified in witnessing to day the completion of his enterprise, which is to give our people pure and wholesome water to drink. In five years from now we will have to duplicate these works to supply half a million of people who are settling among us. On looking at your splendid engines some among us feel jealous, but I am glad to see industry and skill thrive in any and all portions of our country. I feel proud that Pittsburgh has added to her reputation by turning out such work, and that she is so worthily represented here today. [Applause.] I propose the health of the Knapp Fort Pitt Foundry Company, the contractors for the pumping machinery to supply the city of St. Louis with an ample supply of pure and wholesome water.

This brought

COL. JOSEPH M. KNAPP

to his feet. He said speaking was not in his forte, but he would make a few practical remarks. He was not like the orator who said he had a few extemporaneous remarks to make, which he had written the week before. [Laughter.] He would give a brief history of the contract. We came here about three years ago and put in our bid for these engines, and the contract was awarded to us as the lowest and best bidders. Our friends thought we would lose by it, as it subjected us to great expense to fulfill it. Our foreman died, and left this important branch of our work without a pilot. It was the firm resolution of the officers of the Fort Pitt company to carry it out to the letter, and give entire satisfaction to the gentlemen of this city. Great credit is due to Messrs. Chaphe and Steele, two of our assistants, who have done their work with unequalled skill and fidelity. The engines are found to work remarkably well—doing more than was expected of them.

Further speeches were made by other gentlemen, including Hon. Henry T. Blow, late Minister to Brazil, Mr. McKee of the *Democrat*, Ex-mayor Felley, Mr. Berry of Pittsburgh and others.

THE MINER'S LOT.

The following mournful ditty was translated from the song book of the miners of Johannesgeorgenstadt, in Saxony, for *Good Words*:

I dive into the deepest pit,
You'd tremble where I stay,
And through the rock and glittering ore
My arm must break its way.

I cannot breathe the summer air,
Nor see the roses blow;
No scent of flowers can meet me there,
No freshness where I go.

Though every element declare
That death's at every turn,
I fear no dark abyss if but
My little lamp should burn.

Nor do I fear the threatening cliff
Precipitous o'er head,
Nor yet the wild and gushing stream
That tears its rocky bed.

Nor yet the blue and ghastly flame,
From which comes poisoned breath,
Blown out to bring us suddenly
Into the jaws of death.

I boldly bore it into the hill,
And split the hardest rock,
God grant the grace—I light the match,
And wait the dreadful shock.

I boldly dig from mountain depths
The veins that lighten dearth,
And bring from out of rocky gulfs,
The marrow of the earth.

How beautiful at first! but soon
We see an idol rising,
They worship it, forgetting us,
And God himself despising.

I open many a golden lode,
And many a silver vein;
And when the rich take up the prize,
What think you is my gain?

Stiff rheumatism in my limbs,
And oft a beggar's stave;
Dry bread with but a little salt,
And oft an early grave.

True, many a miner passing by
Weeps when he sees my end;
And having blessed my ashes, says,
"Rest well, rest well, my friend!"

So glimmer on, my little lamp,
For certain, soon or late,
With many a brave and noble man,
The grave will be my fate.

Did Paris Vote for a Gun, a Gunboat or a Man?

The London *Times'* correspondent in Paris, noting the members of the new French Assembly who are elected from Paris, tells this story of one of the number:

The last elected is M. Farcy. Who is M. Farcy and why is he elected? M. Farcy is only a naval lieutenant, who during the siege of Paris commanded a gun boat on the Seine. This vessel was armed with a big gun, and this gun, it was affirmed, carried death and terror into the Prussian ranks. There was no battery, no Krupp gun, no field or permanent fortification that could stand before this formidable machine. No one had gone to verify this fact; but the newspapers having repeated it in every tone, it soon became matter of history. The gunboat was called from the name of its commander the Farcy gunboat; the gun was also named the Farcy gun. Some well-informed persons even added that Lieutenant Farcy was the inventor of the gunboat, to which he had been able in a very small space to make sufficient room for an enormous gun. But others, who knew quite as much about it, declared that it was the cannon that was M. Farcy's work, and they grounded their opinion on a claim made upon the Government, the object of which was to give a new carriage to the Farcy gun which would enable it to throw its shells in among all the Prussian artillery helmets.

At one moment the whole question of the defence of Paris turned upon this gun carriage, and when the bombardment commenced people did not hesitate to say that if the Farcy cannon had had its carriage such an insult would never have been offered to the capital. In the midst of all these contradictory sayings the inhabitants on the two banks of the river still suspended their judgment, and were still asking whether it was the gun or its support that was invented by M. Farcy, when the Armistice was signed and the Deputies convoked. By reason of the great noise made by his cannon M. Farcy found himself placed on the list. Some voted for the gun; some for the gunboat—in short, the officer who had done his duty as an artilleryman and a sailor got about 70,000 votes, which have enabled him to go to Bordeaux to treat for peace and give a new Constitution to France. It has not been stated whether he is to take his gunboat and his gun with him. It seems to me a matter of the highest political interest that the question so long debated should be definitively settled. The Parisians must at last know what they have voted for, whether for the gun or the gunboat.

You my think, perhaps, that I am joking; nothing can be more serious; I will not say more sad. M. Farcy's election is an historical fact, it is not an apologue, but as from an apologue a good moral may be drawn. It is sufficient for a name to resound often in the ears of the Parisians and to be touched with a ray of persecution, or only the reflection of ill-will on the part of the Government, and popularity is assured. They do not inquire whether the name is that of a man of worth, nor even if the man exists. If an election comes, they will vote for him.

An Emerald Idol and Its Temple.

"The English Governess at the Siamese Court has this account of the Temple of the Emerald Idol in Siam:

The temple itself is unquestionably one of the most remarkable and beautiful structures of its class in the Orient; the lofty octagonal pillars, the quaint Gothic doors and windows, the tapering and gilded roofs, are carved in an infinite variety of emblems, the lotos and the palm predominating. The adornment of the exterior is only equalled in its profusion by the pictorial and hieroglyphic embellishment within. The ceiling is covered with mythological figures and symbols. Most conspicuous among the latter are the luminous circles resembling the mystic orb of the Hindoos, and representing the seven constellations known to the ancients; these revolve round a central sun in the form of a lotos, called by the Siamese *Dok Athit* (sun flower,) because it expands its leaves to the rising sun and contracts them as he sets. On the cornices are displayed the twelve signs of the zodiac. The altar is a wonder of dimensions and splendor—a pyramid one hundred feet high, terminating in a fine spire of gold, and surrounded on every side by idols, all curious and precious, from the bijou image in sapphire to the colossal statue in plate gold. A series of trophies these, gathered from the triumphs of Buddhism over the proudest forms of worship in the old pagan world.

In the pillars that surround the temple, and the spires that taper far aloft, may be traced types and emblems borrowed from the Temple of the Sun at Baalbec, the proud fane of Diana at Ephesus, the shrines of the Delfian Apollo; but the Brahminical symbols and interpretations prevail. Strange that it should be so, with a sect that suffered by the slayings and outcastings of a ruthless persecution at the hands of their Brahmin fathers, for the cause of restoring the culture of that simple and pure philosophy which flourished before pantheism. The floor is paved with diamonds of polished brass, which reflect the light of toll tapers that have burned on for more than a hundred years, so closely is the sacred fire watched. The floods of light and depths of shadow about the altar are extreme and the effect overwhelming

The Emerald Idol is about twelve inches high and eight in width. Into the virgin gold, of which its hair and collar are composed, must have been stirred, while the metal was yet molten, crystals, topazes, spphires, rubies, onyxes, amethysts and diamonds, the stones crude, or rudely cut, and blended in such proportions as might enhance to the utmost imaginable limit the beauty and the cost of the effigy. The combination is as harmonious as it is splendid. No wonder it is commonly believed that Buddha himself alighted on the spot in the form of a great emerald, and by a flash of lightning conjured the glittering edifice and altar in an instant from the earth, to house and throne him there.

A Crammed Man's Moan.

The New York *Commercial Advertiser* says: An intellectual *pate de foie gras* is exhibited. The victim, who tells his own story, was so unlucky as to find himself in one of the "cramming schools" in Boston, and he says that out of fifty young men in his class, only thirteen were graduated—the remainder having retired with broken constitutions as the result of severe and mental strain. This revelation perhaps explains some of the eccentricities of Boston—possibly it accounts for the frequent "irregularities" in the financial accounts of its citizens who move in good society. When they are fit for anything they are fit for all things—and those who are fit for nothing go elsewhere, to die. But hear our victim; he says his course of life, under the cramming process, was simply intolerable, involving continuous study for ten and a half hours each day, with one night in the week for attendance at prayer-meeting. "The great end was gained," he says, "in sending our men better prepared for college than any other preparatory school in the land. It was, however, at the cost of the health and bodily vigor of the many who failed in the race, and of too large a proportion of those who won. I decided long ago that my children, when old enough for school, should have no more study than they could learn during the hours devoted to the school sessions with a stated number of hours at home"—and in this decision, this victim of a bad system, who was fortunately robust enough to pull through, is entirely right. His revelations may have some weight, even in Boston, for the better sort of folk in that singular town are beginning to see the error of this cramming process, and a few sensible men and women are moving for a reform.

AN INSALUBRIOUS SEASON.

Spring is welcome, but not its diseases. We should be glad to have its bloom without its fogs, its vapors, its sudden changes of temperature, and the agues, fits of indigestion, bilious attacks, and other harassing disorders which they engender. As this cannot be, it behooves all sensible people to do the best they can to escape such serious drawbacks on the poetry of the season. Ask any physician what the weak and delicate ought to do when miasma infects the air The answer will be, "tone and regulate the system." But how? That is the importent question. A dozen medical men would probably recommend as many different medicines. On the other hand, the thousands who have tested the virtues of Hostetter's Stomach Bitters as an invigorant and alterative, will recommend but one, the wholesome preven ive and restorative in which their own experience has taught them to trust. A course of this rar vegetable stimulant, commenced now, would save many a pang to the feeble and debilitated. It would be wise economy too, for it would probably preclude the necessity for medical advice. Without disparagement to a profession which all intelligent men and women respect and honor, it is just as well, if possible, to keep out of the doctors' hands, and they would have comparatively few cases of fever and ague, dyspepsia, biliousness, nervousness, and general debility to attend to, if this agreeable and healthful specific were in universal use.

Keep Your Houses Clean,

SAVE FUEL,
BY USING THE
Wellman Patent Reflector
STOVE AND GRATE.
Which Stand Without a Rival.

The WELLMAN STOVE is furnished with the "REFLECTOR GRATE," and possesses all the advantages of an open fire place; it is specially adapted to houses where the flues are too small to admit a grate, and affords all the comforts of a CHEERFUL OPEN FIRE.

1st. As a radiator of heat it has *double* the intensity of any other grate.
2d. It is unquestionably the most cleanly—no soot or ashes escaping into the room—which, in the ordinary Grate, proves so detrimental to carpets and furniture.
3d. The combustion is *perfect*. There is no waste in unburnt cinders—every ounce of the fuel is so completely consumed, that nothing remains but the finest ashes.
4th. As an economizer of fuel—there being an *actual saving* of at least 25 per cent.
5th. It is highly ornamental.
6th. It is set so deep in the chimney, that it is much safer, and also less liable to puff in windy weather.
7th. A slight motion of the shaker cleanses the entire fire, and causes it to burn with great brilliancy and intensity of heat.

Samples may be seen and references had at the store of W. BARNES, corner of 3d avenue and Market street, Pittsburgh; W. F. GOODWIN, 66 Federal street, Allegheny, or at the FOUNDRY, corner Duquesne Way and Water street, Pittsburgh.

Parties who are building, or who contemplate changing Grates, are respectfully requested to examine "The Wellman." Satisfaction guaranteed in all cases.

NEW 7-30 GOLD LOAN.

Safe! Profitable! Permanent!

JAY COOKE & CO. offer for sale at Par and Accrued interest the First Mortgage Land Grant Gold Bonds of the Northern Pacific Railroad Company.

These bonds are secured, *first*, by a First Mortgage on the Railroad itself, its rolling stock, and all equipments; *second*, by a First Mortgage on its entire Land Grant, being more than Twenty-two Thousand Acres of Land to each mile of Road.

The bonds are free from United States Tax; the Principal and interest are payable in Gold—the Principal at the end of Twenty years, and the Interest Semi-annually, at the rate of SEVEN AND THREE-TENTHS PER CENT. per annum.

They are issued in denominations of $100, $500, $1,000, $5,000 and $10,000.

The Trustees under the Mortgage are Messrs. Jay Cooke, of Philadelphia, and J. Edgar Thompson, President of the Pennsylvania Central Railroad Company.

These Northern Pacific 7-30 Bonds will at all times before maturity, be receivable at TEN PER CENT. PREMIUM (or 1.10), in exchange for the Company's lands at their lowest cash price.

In addition to their absolute safety, these Bonds yield an income larger, we believe, than any other first-class security. Persons holding United States 5-20's can, by converting them into Northern Pacifics, increase their yearly income *one-third* and still have a perfectly reliable investment.

HOW TO GET THEM.—Your nearest Bank or Banker will supply these Bonds in any desired amount, and of any needed denomination. Persons wishing to exchange stocks or other bonds for these, can do so with any of our Agents, who will allow the highest current price for ALL MARKETABLE SECURITIES.

Those living in localities remote from Banks, may send money, or other bonds, directly to us by express, and we will send back Northern Pacific Bonds at our own risk, and without cost to the Investor.

For further information, pamphlets, maps, etc., call on or address the undersigned, or any of the Banks or Bankers employed to sell this Loan.

For sale by the following Agents:

DR. WHITTIER
CONTINUES TO TREAT ALL PRIVATE DISEASES. Syphilis in all its forms, all urinary diseases, and the effects of mercury are completely eradicated; Spermatorrhea or Seminal Weakness and Impotency, resulting from self-abuse or other causes and which produce some of the following effects as blotches, bodily weakness, indigestion, consumption, aversion to society, unmanliness, dread of future events, loss of memory, indolence, nocturnal emissions, and finally so prostrating the sexual system as to render marriage unsatisfactory, and therefore imprudent, are permanently cured. Persons afflicted with these or any other delicate, intricate or long standing constitutional complaint should give the Doctor a trial; he never fails.
A particular attention given to all Female complaints, Leucorrhea or Whites, Falling, Inflammation or Ulceration of the Womb, Ovaritis, Pruritis, Amenorrhoea, Menorrhagia, Dysmenorrhoea, and Sterility or Barrenness, are treated with the greatest success.
It is self-evident that a physician who confines himself exclusively to the study of a certain class of diseases and treats thousands of cases every year must acquire greater skill in that specialty than one in general practice.
The Doctor publishes a medical pamphlet of fifty pages that gives a full exposition of venereal and private diseases that can be had free at office or by mail for two stamps, in sealed envelopes. Every sentence contains instruction to the afflicted, and enabling them to determine the precise nature of their complaints.
The establishment, comprising ten ample rooms, is central. When it is not convenient to visit the city, the Doctor's opinion can be obtained by giving a written statement of the case, and medicines can be forwarded by mail or express. In some instances, however, a personal examination is absolutely necessary, while in others daily personal attention is required, and for the accommodation of such patients there are apartments connected with the office that are provided with every requisite that is calculated to promote recovery, including medicated vapor baths. All prescriptions are prepared in the Doctor's own laboratory, under his personal supervision. Medical pamphlets at office free, or by mail for two stamps. No matter who have failed, read what he says. Hours 9 A. M. to 8 P. M. Sundays 12 M. to 2 P. M. Office, No. 296 PENN STREET.

Those who wish to enjoy good health and a free flow of lively spirits, will do well to take the Wine of Life. It is different from anything ever before in use. MONEY AND COMMERCE.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, March 11, 1871.

Gold dull and steady. All transactions at 111¼@111⅜. Loans were made at from 2 to 4 per cent. Clearances $35,000,000. Exports for week, $954,000. Government bonds steady, but without any new feature. There is nothing new to notice with regard to refunding loans of Government. The stock market is buoyant and strong on a small volume of business speculation, running principally in Ohio and Mississippi, Pittsburgh, Rock Island and Pacific. The chief feature was in Ohios, which advanced from 45⅜ to 47⅜. Lake Shore and New York Central being strong all day. Union Pacific opened at 28, fell to 24, and closed at 25¼.

The Bank statement unfavorably shows that the banks have made a net loss of $2,751,865 in their legal reserves and they now hold only $15,420,146 above 25 per cent. required by law. The following are the changes.

Loans, increase	$6,721,508
Specie, decrease	583,030
Legal Tender decrease	973,884
Deposits, increase	4,865,010
Circulation, decrease	5,211

The Express says the failure of large dry goods commission houses in New York and Boston was announced to-day. It states that the firm was dragged down by the failure of an eastern mill.

Money easy at 4 per cent.

State securities more active, South Carolina's and Virginia's strong.

PITTSBURGH MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY, March 11, 1871.

APPLES—Demand moderately active and prices fully maintained, $4@5 per bbl—choice "Russetts" would sell readily at $5,50, but there are few of this kind in this market.

APPLE BUTTER—Quoted 75@80 cts per gallon for prime to choice.

ASHES—Common Soda Ash, 4 cts; Refined do 4¾; Pearl Ash, 9; Potash, 7½.

BUTTER—Is easier under the influence of increased receipts but prices, particularly for the better grades, are still maintained. Prime roll, is being sold at 30, and choice, in small packages, is quoted at 31@32. Inferior and medium butter dull and nominally unchanged, 15@25 cts.

BROOM CORN—The supply is considerably reduced, and the market, in consequence, is firmer, though prices are unchanged at 4@6c.

BEANS—$1,50@2.25 per bushel.

BEESWAX—28@30 cts per lb.

BUCKWHEAT FLOUR—2¾@3 cts.

CHEESE—Is scarce and firm at 18½@19 for New York Goshen; 17½@18 for Ohio Goshen; 16½@17 for Ohio Factory, and 16@16½ for Western Reserve.

COAL—Anthracite quoted at $10,00@10,50 per ton.

CORNMEAL—Small sales of prime yellow at 85@90cts per bushel.

CARBON OIL—Is firm and standard brands are quoted at 23 cts in 25 or 50 barrel lots, and the usual advance for small lots.

CANDLES—Quoted at 12 cts for mould, and 19 for star.

CEMENT—Sales Louisville Hydraulic at $3@3¼, and Calcined Plaster at $4¼ per bbl.

CRANBERRIES—May be quoted at $12@18 per barrel, according to quality.

DRIED FRUIT—Peaches firm but unchanged; quarters, 10@10½; mixed, 11@11½, and halves, 13@14. Apples may be quoted at 6@8 cts. Blackberries, 12@13.

EGGS—There is no falling off in the receipts, and with no increase in the demand, the market continues dull and weak and prices still tending downward. We now quote at 20, though some dealers are still asking 21@22 cts.

FEATHERS—We are reported sales of No 1 live geese feathers, to the trade, at 75; may be quoted at 80 in small lots.

FLOUR—The market continues firm, though there is no improvement to note in the demand, and no change to make in quotations. Dealers generally seemed inclined to be "bullish," being impressed with the belief that higher prices are near at hand; but buyers are taking hold sparingly, being apprehensive of a decline instead of an advance. We continue to quote at $6,75@7,00 for good spring extras; $7.25 for choice Minnesota baker's flour; $6,75@7.00 for red winter wheat and $7,25@7.50 for white. Rye Flour, $6,75@6.00.

GRAIN—There is a continued good milling demand for Wheat and the mills are taking all that offers at quotations, $1,35@1,40 for fair to prime red and $1.45@1,50 for white—sale 300 bush white at $1.48. The arrivals during the past week have fallen off considerably and the stock in the hands of dealers is very much reduced. Oats, firm though less excited, and the impression begins to prevail, that for the present, at least, the top has been touched, though there is no probability of a decline; we continue to quote at 55@56 in round lots, and 58@60 for small lots, in store. Ear Corn is coming in more freely, but the stock in this market is light; we are reported sales of prime yellow on wharf at 72. There seems to be no inquiry for shelled Corn, and notwithstanding the supply is very light, it is doubtful whether it could be sold at any advance; the stock yards and street railway companies seem to be pretty well supplied and there are but very few other buyers. Rye is in steady demand and limited supply and sells readily on arrival at $1.05. Barley is quiet and devoid of a single new characteristic worthy of notice; the arrivals continue light and prices unchanged, 80@85 for spring and 90@95 for fall.

GROCERIES—As noted in our report of yesterday, refined sugars are firmer in the east, but as yet there has been no actual advance, and the impression seems to be that if there was it could not be sustained any length of time. Raw sugars are easy, and eastern houses, generally seem to be anxious to realize; New Orleans is now considered the cheapest sugar in market. Coffees firm and good roasting coffee is scarce and in demand. Syrups dull but unchanged. Following are the ruling quotations:

COFFEE—Fancy Rio, 20; Prime, 19; Good, 18; Fair, 17; Roasting, 16@16½.

SYRUPS AND DRIPS—White Honey, 75; Havemyer & Elders, 75; Silver Drips, 60; Loverings, 63; other grades, 45@55.

SUGARS—Choice New Orleans, 11¼; prime, 11⅛; good, 10¾; fully fair, 10; Porto Rico Sugars 10¾@11½; Cuba, 10@11; Demarara, 11½@12½.

REFINED SUGARS—Hard Sugars, 13¾; A Coffee, 12¾; "B," 12½; Extra C, 12¼; C. yellow, 12.

MOLASSES—New Orleans, choice, 70; prime, 68; good, 65.

TEAS—Fancy Young Hyson, $1 40; Good, $1 10; Fair, $1. Lower grades down to 70cts. G. P. Fancy, $1 50; good, $1 25; fair, $1 10; Imperial Fancy, $1 40; good, $1 25; fair, $1; Oolong fancy, $1 25; good, 90cts; fair, 60@70c; Souchong fancy, $1 20; good, 90c; fair, 70@80c, Japan Fancy, $1; good, 90c; fair, 75c.

RICE—Choice Carolina, 9½c; prime, 9c; good, 8½c.

SPICES—Grain Pepper, 23c. Pimento, 17c. Cloves, 20c. Cassia, 60c.

FOREIGN FRUITS—Currants, 11½@12 cents. Prunes, 12½c. Valencia Raisins, 15c. Layer Raisins, $3.25 per box.

HAY—Sold from country wagons at $14@20 per ton.

HONEY—Continues dull and cannot be quoted above 25@30 cts.

HOMINY—$5,00@5,50 per bbl; Pearl, $6,00@6,25.

HUSKS—Quoted at 2½@3 cts.

HIDES—Green salted (all weights) 10½@11½; green butchers (cow and steer) 7@8; green salted kip 14@16; do calf, 16@18 Dry.

LIME—Sales of Cleveland at $2,25 per bbl and eastern at $1.75.

MILL FEED—Sales in a jobbing way at $1 for bran; $1.15@1.25 for seconds and $1,50@1,80 for middlings, according to quality.

ONIONS—Stock, particularly of prime sound onions, very light and prices are well maintained, $5.00@6.00 per bbl, for fair to prime.

OILS—No 1 lard $1.08@1,10; No. 2, 70; Pure; Labrador cod oil 70@75; straits, 65; bank, 60c.

PROVISIONS—Plain shoulders, 10c; Sugar Cured do, 11; Ribbed Sides, 12½; Clear do, 13½; Sugar Cured Hams, 16; Prime Kettle Rendered Lard, 13 in tcs, and 14 in buckets and kegs. Dried Beef, 19. Mess Pork, $22½. Country Lard, 11½@12½.

PEANUTS—Firm and higher; we now quote at $2@2½ cts per pound.

POTATOES—In steady demand and we can report regular sales at $1.20@1.25 per bushel.

The receipts are increasing somewhat but the supply in this market is by no means large.

SEEDS—Clover Seed is somewhat excited under the influence of the advices from Cincinnati and Toledo, and while dealers are still supplying regular customers with small lots at former quotations, a sharp advance would no doubt be asked for a round lot. We now quote at $6.90@7.00 for small lots. Timothy Seed is scarce but there is not much inquiry for it; $6.25@6,50. Flaxseed, unchanged at $2,15@2,18.

SOAPS—Rosin, 3½@5 cts; Chemical Olive, 7½; Crampton's, 10; Wax, 8; Babbitts, 11; Woman's Friend, 9½; Dobbins, 14½; Kitchen Crystal, 10; Colgate's Palm, $4.75.

SUMAC—Sales Tennessee Sumac at 4½ cts.

TALLOW—Is dull and cannot be fairly quoted above 8¼@8½.

WILLOWS—Sales Kentucky willows at 10.

PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY, March 11, 1871.

The week closes with an exceedingly dull and weak market, and, notwithstanding there has been considerable of a decline in prices within the past two or three days, the indications to-day are that the bottom has not yet been reached. Not only is the market weak here, but, and it is something not a little remarkable, it is beginning to show signs of weakness above, which is evident from the fact that some of the producers are anxious to sell, dispatches having been received from the producing regions making inquiry as to the best figures that could be obtained, and the responses thereto were anything but favorable (for them). The eastern markets were also very dull and weak and as compared with yesterday, prices have still further declined. Private advices from Philadelphia report that some of the exporters, instead of buying are selling, which goes to substantiate the statement made in our report the other day, that prices in this country are higher relatively than in Europe and have been so for some time past. Furthermore, a telegram from the same place reported that all orders from New York had been withdrawn, and that there were no buyers.

From the above it is evident that the producers cannot find purchasers in this market unless they make very material concessions, and this in the end they will be obliged to do, it is not possible for them to carry the entire production; they have been carrying a heavy load for some months, and it is becoming heavier every day; the only buyers are the refiners, and as is well known, they can do nothing with it at present prices. As already intimated, there is not much prospect of an early advance in refined, and it follows, therefore, that there must be a decline in crude before there can be any healthy or permanent revival in the business.

Receipts Crude this week, 12,636; last week, 31,916. January 1st to date, 127,992; same time last year, 166,571. Exports refined this week, 6,649; last week, 9,473; January 1st to date, 82,566; same time last year, 72,372. Sales this week, 5,200 bbls crude; —— refined; last week, 27,700 crude; 1,500 refined.

CRUDE.

We are reported sales of some 3,000 bbls spot at 11 cts, a decline, as compared with yesterday, of a ¼ of a cent, and even at this reduction, refiners generally are out of the market. The great proportion, if not all, of the above 3,000 bbls was bought by short sellers to cover maturing contracts. Futures are dull and entirely nominal.

REFINED.

March has still further declined; it was offered to-day at 24, and 23¾ reported as the best bid. Futures are entirely speculative, and prices are entirely nominal. There seems to be little or no inquiry for either present or future deliveries.

PITTSBURGH CATTLE MARKET.

EAST LIBERTY STOCK YARDS, SATURDAY, March 11, 1871.

RECEIPTS STOCK.

The receipts of stock at the Central Yards for the week ending to-day, were as follows

	This week.	Last week.
Cattle	155 cars.	108 cars.
Hogs	58 "	85 "
Sheep	70 "	60 "
Horses	36 "	38 "
Mules	16 "	10 "
Total	335 "	301 "

CATTLE.

The receipts for the week ending to-day were unusually small, 155 cars, and notwithstanding, the feeling was a little better than it has been for several weeks, the supply, nevertheless, was in excess of the demand, which is evident from the fact that twenty-three car loads were shipped through to Philadelphia in first hands. When we say the market was a shade better, it must not be inferred that there was any advance in prices, for such was not the case. The improvement, if such it can be called, consisted in this, that eastern shippers generally were more disposed to buy than for some two or three weeks, though, at the same time, they were unwilling to pay an advance. As will be seen by reference to the report of sales, no droves were sold above 6½, some few retailed at 6¾@7. Stock Cattle less active and weaker, the recent decline in fat Cattle having cut down the demand very materially.

SHEEP.

The arrivals of sheep were again light this week and the supply was not up to the demand, hence a lively market, and all the different grades brought an advance of from ⅛ to ⅜ a cent, as compared with last week. Good heavy sheep were in active demand for shipment to New York at from 6@6½ for prime 85@90lb averages; and 6¾@7½ for extra fine wool averaging 95@110 lbs. There were none left over unsold. Scalawags may be quoted at $1.50@2.00 per head, and common at 4@5 cts per pound.

HOGS.

Receipts unusually light this week, 58 loads; this is the lightest run of hogs at these yards in any preceding week since last fall. Notwithstanding the very light receipts, however, the demand was fully up to the supply and the market has been, all things considered, one of the hardest of the season. As compared with last week, prices have declined ½ to 1 cent per pound; we now quote York hogs at 7, and Philadelphia at 7½.

Dry Goods.

NEW YORK, March 11.—The demand for certain classes of dress goods, shawls, trimmings, &c., is fairly active, but the general state of the market is neither active or satisfactory. Some buyers are holding back looking to a further break in the price of prints and other domestic fabrics, and all are taking hold of goods with extreme caution. This is a healthy sign for the future, for no buyer is likely to be overstocked with goods, and a late season will intimidate producers from turning on too many goods. In prices there is no radical alteration to observe at present. We quote Allendale at 10½c; brown sheetings 31 11-4, 36c; Amoskeag standard 12½c; Agawam F. 9c; Broadway 10½; Massachusetts C. 7½c; J. 9c; Essex L. bleached muslin 12½c; Langden fine sheeting 13c; do. RIVER NEWS.

The river is again falling at this point with 8½ feet in the channel. Weather last evening, clear and cool.

Capt. M. A. Cox has assumed command of the Brill and will at once commence loading her for Nashville.

The R. W. Skillinger is the regular packet for Portsmouth to-day, leaving promptly at 4 P. M.

The Lorena, from New Orleans, is due here to-day.

The Carrie Brooks, for Zanesville, is the only departure we have to report.

The R. W. Skillinger, from Portsmouth, is due here this morning, and will return as usual to-day at 4 P.M. Although in the trade but a short time, she has built up a good business; last week she came in with her guards touching the water, and we have no doubt but what she will have a full cargo in to-day. She is a new boat, has superior accommodations for passengers, and is every way well adapted for the trade.

Capt. Isaac R. Whittaker has resigned the position of chief clerk on the Mollie Moore, and is succeeded by Sam. Barr, Jr.

The H. C. Yeager left Cairo for New Orleans on Friday with a full cargo.

The Belle Vernon, en route from Nashville, left Cincinnati, for this port, on Friday, after 100 bales of cotton.

The St. Charles was to have come off the dock on Saturday, at Cincinnati, and it is expected that she will be ready to leave for Pittsburgh to-morrow.

The Mollie Ebert, en route for New Orleans, stopped at Memphis several hours on Friday to patch her boilers.

The City of Quincy, en route from New Orleans, has, among other items of freight, 25 hhds of sugar for Dilworth, Harper & Co.

The Juniata was advertised to leave Cincinnati for this port yesterday. She will leave here again on Thursday, her regular day.

The elegant steamer Alexander Mitchell arrived yesterday. She is in command of Capt. Lon Bryson, an old and popular steamboatman, and will at once commence loading for the Upper Mississippi. The Mitchell will go clear through to St. Paul: here is an excellent opportunity for families moving west.

The Far West, Capt. S. B. Coulson will be the first boat out for St. Louis and Missouri river. Capt. Coulson expects to get off to-morrow without fail.

The Messenger, Capt. Robert Greenlee, is announced for New Orleans.

The new steamer, E. H. Durfee, Captain Wm. Coulson, will follow the Far West to St. Louis and Missouri River.

—The St. Louis *Dispatch*, refering to the recent tornado, says: The Mollie Able, lying on the opposite side of the river, and which had just returned from New Orleans, was seriously damaged. Her life boat was carried from the hurricane roof to the top of the levee and completely bent around a tree; the pilot house, texas, both chimneys and the greater portion of the cabin, with the furniture of the ladies' cabin, were blown overboard and knocked into smash; one of her bucket planks of the shore wheel was drove into her hull above the water line, and made her look the most complete wreck of a steamboat we have seen for some time. Her damages, we understand, will amount to nearly $10,000. The ferryboat America, the bridge towboat Hewitt, two of the Wiggins ferryboats and the ram Vindicator were all more or less injured.

—The St. Louis barge line bills freight to Mobile, transferring at New Orleans to the Morgan line of steamers. And as the competition at New Orleans is quite strong for Mobile business, the steamer company agrees to deduct from rate at which goods are billed at St. Louis, the amount of the "cut" at the time between New Orleans and Mobile.

—The St. Louis *Democrat*, of Friday, says Captain M. A. Cox has come up from New Orleans and was to leave last evening for Pittsburgh, where he will very probably soon be receiving proposals for his new steamer. The one he is going to have built will probably eclipse the Oceanus, which is very hard to do, however.

—The Cincinnati Enquirer of yesterday says: "The barge lost by the Lionness lies in the ripple at the foot of McMahon's Creek. Boats will have to pass to the right going down. The boat sunk by the Fearless lies opposite the coal-yard at Heathrington's, in the middle of the river; keep to the right, going down."

—The Louisville Courier of Thursday says: The towboat Boaz arrived yesterday morning with nine coal-boats and two barges from New Orleans, where she delivered 350,000 bushels of coal without the loss of a lump. Captain Geo. Barrett and Captain Smith are her pilots, and pass on up to Pittsburgh with her empty tow.

—The Great Republic, Capt. W. B. Donaldson, is on her way up from New Orleans to St. Louis with 2,500 bars of railroad iron, and a very large cargo of other freight, and the largest list of passengers that has come up the river this season.

—The Natchez Courier says: Capt. Goodin of the Wild Wagoner, has purchased the Frank Pargoud, to make semi-weekly trips between Natchez and New Orleans.

—Twenty-five thousand bales of cotton were landed at the New Orleans wharf between Friday night and Tuesday morning last.

—It is rumored that parties from Wheeling have purchased the Kate Henderson for $5,000.

—Captain T. G. Ledbetter has sold his interest in the steamer Marcella at New Orleans.

—Capt. Thos. Rogers and W. Martin are the pilots on the Comet.

—Capt. John Woodburn is in Cincinnati.

FINANCIAL.

FIRST MORTGAGE
7 Per Cent. Gold Bonds,
ON A COMPLETED ROAD.
(FREE OF U. S. TAX.)
At 90 and Accrued Interest in Currency.
Burlington, Cedar Rapids & Minnesota Railway.

The completion of this Road has given to these Bonds an established character equal to any in at the Stock Exchange. We are prepared to buy and sell them at any time, at our Banking House, at market price—thus placing them on the same basis, for temporary or permanent investment with Governments or any other security.

These bonds are a first and only mortgage on a railroad that has cost double the amount of the issue, and which commands, without competition, all the traffic of Northern Iowa and Southern Minnesota—shortening the distance from St. Paul to Chicago 45 miles, and to St. Louis more than 90 miles.

The net earnings are already largely in excess of interest on the bonds, and no doubt exists that they will more than double within the ensuing year.

A contract has been secured with the Chicago, Burlington and Quincy Railroad Company, obligating the latter to invest 50 per cent. of gross earnings derived from traffic with the Burlington, Cedar Rapids and Minnesota Road in the bonds of this Company. This arrangement is a strong guarantee of the Bonds, and establishes a large sinking fund for their redemption.

The convertibility privilege in these Bonds enables them to be exchanged for stock at par at any time. This secures to the holder, at his option, a share of any excess of earnings over the interest obligation.

An exchange of Government securities for these Bonds returns 9½ per cent. interest, instead of 5 per cent., which is all that Government pays at present price, besides leaving an immediate gain of 20 per cent. in price for reinvestment.

All marketable securities taken in exchange free of commission and express charges.

HOME NEWS.

Plenty of work for our Street Commissioners.

Farmers are beginning to complain of fine weather.

The Passenger Railways are all doing a good and paying trade.

Next Mayoralty contest in Allegheny promises to be very exciting.

Our Public School Teachers will hold their annual gather in a few weeks.

Allegheny School Teachers and Directors don't harmonize on "corporal punishment."

Enough ice has been laid in this winter to secure its abundance and cheapness next summer.

The services in the jail and penitentiary yesterday were of an unusually interesting character.

The Market Committee of Councils were out on a tour of inspection for new market places in the remote wards on Saturday.

Clothing Store Robbery—David Patton has been held for trial on a charge of breaking into Russell's shirt store on Fifth avenue.

Are we to have any more cold weather. The June weather we are now enjoying is neither healthy nor agreeable in the middle of March.

Pittsburgh Council Chambers need a thorough renovation. The stairs and hallways leading thereto carry the palm for filthiness.

The Mayor has instructed the police to "take up" all wagons left standing on any public thoroughfare without horses attached.

New cars to be placed on the Pleasant Valley line in a few days. The schedule will then be rearranged and the cars run on "seven minutes time."

The City Councils of Pittsburgh will meet this afternoon at two o'clock, in their respective chambers. Important business is to be brought forward.

Strange but True.—The Dollar Store, at 76 Fifth avenue, commence to-morrow to sell by auction their entire stock. Now is the time to get bargains. See their card on first page.

Boyd's Hill—We recommend everybody to keep away from the edge of this bluff. It seems to be of a peculiarly slippery character, or else the whisky in that neighborhood is uncommonly strong.

The journalists who form the Western Associated Press have been invited to hold their next annual meeting in this city by our Local Press Association. Should they come they will be made warmly welcome.

Dr. Griffith, for the accommodation of those who are afflicted with infirmities of the flesh on the South Side, has established an office at 506 Carson street, where he will gladly wait upon those needing his services.

Leg Broken.—A little son of a Mrs. Joe, of East Liberty while with some other boys on Saturday fell from a fence and broke his leg. He was immediately taken home and the injured limb set and the little fellow is now doing well.

Interfering with an Officer.—William Herd was arrested yesterday for attempting to rescue Tim Lonsey, who had been arrested for drunkenness and disorderly conduct. Herd was locked up to await a hearing before the Mayor this morning.

Umbrella Thieves Captured—Martin Brown, James Montague and Alias Starr, were committed for trial on a charge of stealing Mr. Dickey's overcoat and umbrella. The theft of the overcoat might have been overlooked, but it was too cruel to steal an umbrella.

Mayor's Court.—Business was unusually brisk at Mayor Brush's levee yesterday morning, fifty cases having been adjudicated upon. William Calamus paid a fine of $25 and costs for interfering with an officer. The balance were disposed of in the usual manner.

On the Shelf.—Domireic O'Connell, a boy of about sixteen, has been sent to the House of Refuge, his mother stating that she was unable to control him, and that he was a nuisance to the whole neighborhood. A little more spanking in his earlier days might perhaps have been judicious.

Two boys were knocked down and run over on Saturday night at Soho on Fifth avenue, by a two horse barouche. They were not injured. Great complaint is made that the boys in that neighborhood constantly blockade the street, and that it is almost impossible to escape driving over them.

Many of our merchants are painting their buildings in anticipation of a sprightly spring trade. We are glad to note the favoritism displayed this season for bright, light colors. It is folly to paint up in dark colors in this city, as the floating atmosphere soon brings a white to a drab, a drab to a black.

Bail Entered.—Officer Dickson, against whom a charge of feloniously shooting James McKee, waived a hearing before Mayor Brush on Saturday and entered bail in $1,000 for his appearance at Court. It is his intention to enter suits for aggravated assault and battery against McKee and George Hall.

Badly Beaten.—An unknown man was assaulted and badly beaten by a party of roughs on the Pittsburgh, Fort Wayne and Chicago Railroad bridge, on Saturday. It is supposed that "Bull" White and his pals, whose arrest for another offence we note, were the party who committed the cowardly act.

Sabbath School Teachers' Union.—The regular monthly meeting of the Pittsburgh Sabbath School Teachers' Union will be held this evening at 7½ o'clock in the Second U. P. Church, Sixth avenue. Subject for discussion "Sociability of Teachers." Rev. William J. Reid will make the opening address.

Threatened to Whip His Wife.—Mrs. Eliza Jane Aiken appeared before Mayor Callow on Saturday evening and stated that her husband, Thomas Aiken, had threatened to give her a sound thrashing, and she feared that he would carry it out, and prayed some restraint might be put upon him. A warrant was therefore issued.

The Printing Committee of City Councils met at Controller McGowan's office on Saturday night and among other business transacted awarded the contract for printing the Municipal Record of Councils for the present fiscal year to the GAZETTE, its proprietors being the lowest and best bidders. The work of printing the rules of Councils, recently adopted, was awarded to W. S. Haven & Co.

False Alarm.—An alarm of fire was struck from box 85, located on Butler street, above the Sharpsburg bridge, about three o'clock yesterday morning. The department were promptly on the ground, but could discover no cause for the alarm. Jokes of this kind are rather expensive in the wear and tear of both horses and machinery, and the perpetrators when discovered should be severely punished.

False Pretences.—Mrs. Mary Jordan made an information before Alderman Floyd on Saturday charging Mrs. Eliza Thomas with obtaining goods under false pretences. The prosecutrix, who keeps a store at Braddocks, alleges that the accused obtained groceries and other goods to the amount of $67 by representing that she owned a house and lot at East Liberty. The defendant was arrested and gave bail for a hearing.

Theives Captured.—Five boys, two brothers named Bradford, Hughes, "Duck" Flynn and another whose name we did not learn, were arrested and committed to the lock-up by Officers Coulson and Moran for breaking into the office of the Birmingham Passenger Railway. They had broken one of the windows and when discovered Hughes was on the inside and the others on the look-out outside. They will have a hearing this morning.

Highway Robbery.—We heard it rumored that an unknown man had been attacked and robbed of his watch by a gang of young ruffians, late on Saturday night, somewhere on the "hill." It is said when they assaulted him they demanded his money, and on being told that he had none, they ordered him to take off his coat, as they thought they could make a raise on that. He objected to this, as the night was cold, and compromised the matter by giving them his watch.

Family Difficulty.—Francis Quig, Sr., sued his son Francis Quig, Jr., before Alderman McMasters on Saturday for malicious mischief. The old gentleman owns a stable in Allegheny city, which he is desirous of renting, and in order to make this desire known to those who may want a stable he put up a "To Let." The son objects to the letting of the stable and, the old man alleges, repeatedly tore down the notice. The junior was arrested and gave bail for a hearing.

Obituary.—We are pained this morning to announce the death from rapid consumption, of Mr. Howard R. Logan, son of Mrs. Eliza Logan, of Allegheny, and brother of John P. Logan, Esq., whose death took place only a few months ago. Howard died on Saturday morning and will be buried from his mother's residence at two o'clock this afternoon. He was a young man almost universally known in this community, and very highly esteemed and respected for his many good qualities of head and heart.

Chess.—On Saturday night the second game of the match between Mr. Rinehart of this city and Mr. Boyce of Oil City, was played at the Western Union Office, resulting in a victory for Mr. Boyce. The game lasted three hours and excited much interest among those who were present. Notice that the match would be played, was published in our columns on Saturday last, and many of the lovers of this most scientific of games were present. Other games will perhaps follow. Thus far the victory rests with Oil City.

The Nathan Murder.—Chief of Police Hague has received from New York the photograph of Forrester, who is said to have committed the Nathan murder. Of course Forrester knows that there is now much interest taken in his welfare, and it is to be hoped that he will at once see the propriety of coming forward and letting Mr. Hague see whether the likeness is a good one. We fear, however, that Forrester is indifferent to these vanities, and cannot be flattered into disclosing his present address by any of the complimentary notices which he may see in the newspapers.

In the City.—Mr. Frank Wells, the able, enterprising and agreeable President of the American Associated Press, and talented editor of the Philadelphia *Bulletin*, is in the city at the Monongahela House. There is "something up" when Frank is around, and the Western Associated Press must watch him, for as a shrewd corner turner, a faithful head of a great combination, he has no superior in this broad land. To his watchful care is due the great success of the A. A. P. A., to which we do not belong, but to which we are willing to pay much deference, as it talks little and accomplishes much.

Death of Mr. Redman.—The community will be deeply pained to learn of the death of Mr. John Redman, the well known lumber dealer of the Southside, which occurred yesterday morning. The deceased was a gentleman of unexceptionable character, and possessed the esteem and respect of all who knew him. He was ever ready to help those who needed help and encouragement, charitable, generous, confiding and good-hearted. His loss is a grievous one to his family, and will cause much mourning in a large circle of admiring friends. The funeral services will take place to-morrow morning at ten o'clock, in the First Methodist Church of East Birmingham.

SOUTH SIDE CONSOLIDATION.

Meetings in St. Clair and West Pittsburgh Boroughs—The People Opposed to Consolidation with the City of Pittsburgh—Resolutions Instructing the Allegheny County Delegation to Oppose the Consolidation Bill now Pending in the Legislature.

BOROUGH OF ST. CLAIR.

Pursuant to the call of "Many Citizens," a meeting of the citizens of St. Clair borough was held in Mr. F. Hogel's Hall on Saturday night to consult upon the all-absorbing topic of the day—consolidation.

The Council having spoken on the subject, the people follow in their wake and ratify their resolutions. Although the notices were only posted on Friday morning, the turnout was good.

Burgess Newmeyer called the meeting to order and stated its object.

On motion of Mr. Louis Fritz, James T. Galvin was called to the chair.

Mr. Galvin expressed his thanks for the honor conferred in a brief but fitting little speech.

On motion J. M. Cook was elected Secretary.

Justice Rauber moved that the proceedings of the meeting be conducted in two languages—English and German. Carried.

Mr. Fagan moved that John Nusser, Esq., act as interpreter. Carried.

Mr. Nusser stated that he was in last year's consolidation committee, and that his opinions were not changed since then on the subject. He was in favor of a Southside consolidation, and opposed to uniting with Pittsburgh at present. It would be an easy matter to join Pittsburgh at the proper time. He spoke of the late organizing of our borough, of the importance of our industrial pursuits and aptly applied them in support of a Southside consolidation. He then addressed the meeting in German, expressing the same ideas we believe.

Justice Conrad had been a member of Birmingham Council in 1851. They had applied to Pittsburgh for gas and water privileges, but were refused. Pittsburgh was always selfish, and is now, in wanting consolidation. She has a hall costing over a million of dollars to be paid for. We'll have to pay our proportion of this and other heavy expenses if we join them, and derive no benefit. He favored a South-Side city. We could have our own park on the hill.

Mr. Fagan moved that a committee be appointed to draft resolutions expressive of the sense of the meeting.

The Chairman stated that St. Clair had not been represented in Pittsburgh on the consolidation question, as had been stated.

Mr. Spinneweber said he had been appointed on the Committee to represent St. Clair Boro', but owing to the opposition of the people, he did not go to the Pittsburgh meeting.

Justice Rauber asked two questions; 1st, What would the working class gain by consolidation? 2nd, Did Pittsburgh act fairly with us?

Two cents bridge toll would be gained—that was all. What would that signify, when Pittsburgh would have all the improvements, and we none. It was said that the police arrangements would be better. Could we not have our own police force? Would have managed the raid on the *cock-pit* ourselves as well as it had been managed. Pittsburgh did not act fairly about the Committee meetings. The place of meeting had been changed without notifying out Committee, one of whom tried to, but could not ascertain where the meeting was to be held.

Louis Fritz, Esq., was in favor of consolidating with Pittsburgh. It would be the means of improving our streets and conferring other benefits. Had Council done anything in securing proper legislation in our borough interests?

Mr. Nusser in the chair, Mr. Galvin asked what Council could do without money. He said that it would do more in one year than Pittsburgh would in five for the benefit of the borough if money was furnished. He thought that Pittsburgh was working for the rich and against the poor in the construction of her avenues. If consolidated we would soon have avenues for *fast* men and women to drive on, but excavated so as to leave poor men twenty feet above them, depreciating the value of their property instead of increasing it, and spoke of the enormous expenses of the Fire Department, of City Hall, and of the contemplated avenue from river to river. He was opposed to consolidation in any manner, shape or form.

Mr. Fagan now pressed his motion to appoint a committee of three to draft resolutions, which was seconded and carried.

The Chair appointed Messrs. J. M. Cook, Justice Rauber and John Nusser.

The committee reported the following;

WHEREAS, An effort is being made to have the city of Pittsburgh and adjacent boroughs consolidated in one municipality, and an act to that end is pending in the State Legislature, providing that each corporation may join or not at its option; therefore;

Resolved, That the citizens of St. Clair Borough deem it not to their interests to be consolidated with the city of Pittsburgh and protest against it.

Resolved, That a copy of these resolutions be forwarded immediately to the Hon. Miles Humphries, Representative of this district.

Justice Conrad moved to accept the report and discharge the committee. Carried.

Mr. Fagan moved to adopt the resolutions as read, and tender our thanks to the committee.

Mr. P. Reinecke and others made short speeches opposing consolidation.

Adjourned.

BOROUGH OF WEST PITTSBURGH.

At a meeting of the citizens and property holders of West Pittsburgh, held on Saturday evening, Jacob Knapp in the chair, and Nicholas Fitzgerald Secretary, the following resolution was adopted with but one dissenting voice:

WHEREAS, An effort is being made by the passage of a bill at Harrisburg to annex the boroughs on the South Side of the Monongahela, in the county of Allegheny, including the borough of West Pittsburgh, to the city of Pittsburgh.

Further, there seems to be a disposition on the part of the framers of said bill to annex said boroughs, including West Pittsburgh aforesaid, without giving the citizens in their separate corporate capacity a fair chance to decide for themselves as to the proposed annexation; and,

Further, they are convinced that the annexation of said borough to the city of Pittsburgh must largely increase the burden of taxation, with no equivalent benefit, as has been the experience of the recently annexed portions of the city of Pittsburgh; therefore,

Resolved That we are totally and entirely opposed to any annexation or consolidation of West Pittsburgh borough with the city of Pittsburgh, and hereby instruct our representatives from this district to prevent it.

Adjourned.

CITY MISSIONS.

Meeting Last Night.

Last night a meeting in the interest of the Presbyterian City Missions was held in the Third Presbyterian Church, Sixth avenue.

The attendance, for some reason was not as large as had been anticipated.

The pulpit was occupied by Dr. McKinney, Rev. F. A. Noble, and the City Missionary, Rev. S. C. Faris.

After a voluntary by the choir Rev. Mr. Noble read the 11th chapter of Acts as a scripture lesson which was followed with the singing of a hymn, and prayer by Dr. McKinney.

Rev. Mr. Faris then gave an extended account of his missionary operations during the past three years. The general result had been the establishment of three churches—Oakdale, Hazlewood and Westminster, with regular pastors, and three other missions—Springfield, Bloomfield and Soho. Other fields of labor were now opening at Allentown and Hatfield.

The speaker gave a statistical account showing the need of more churches in Pittsburgh, and closed by asking $10,000 to continue the missions for the ensuing year. At the anniversary meeting $1,600 of this amount had been raised, and the remainder it was desirable should be made up as soon as possible.

Dr. McKinney then made a brief address commendatory of the cause, after which a collection was taken up.

The meeting then adjourned.

RUBRIGHT AGAIN.

Another Movement for his Release—The Court Considering.

The Rubright case again has come up in Court. It will be remembered that it is but about a week since Rubright was remanded to Dixmont after a lengthy hearing by the Court in the Habeas Corpus case.

Saturday morning Messrs. Moore and McCullough his Attorneys presented in the Common Pleas Court, Judge Stowe presiding, a petition from Jacob Rubright his brother, setting forth that since he [Noah Rubright] had been remanded there had been no change came over him for the worse; that he was not considered by petitioners dangerous; and asking his release under the Act of Assembly of 1858 which empowers relatives to take a person from an insane asylum, upon giving bonds, for his conduct.

The counsel in presenting the petition urged the release upon the further allegation that his (Rubright's) wife was selling off all his property, so that he would have nothing if not soon released.

Judge Stowe said he was willing to release the man if he was convinced no harm would follow to any person. Rubright since he was put into the hospital had shown no change which could be a token as an evidence of his recovery. He would receive the petition, however, and after consultation with Judge Sterrett, render a decision in a few days.

Grand Catalogue Sale of Silks.

Messrs. McKee, Murphy & Co., 59 Market street, will open to-morrow (Tuesday the 14th inst.) one of the grandest and most attractive sales of silks that ever was opened in this city. They have been induced to offer their stock of silks at catalogue sale for a number of reasons. These sales, which were first introduced by them into this city, have on all former occasions proved highly successful, and given the most unbounded satisfaction to those who availed themselves of the opportunity to purchase at them. But in addition to this one of the members of the firm visited New York recently, and while there saw a large lot of silks which was offered to him at what the trade call a "sacrifice." He thought the investment would be a good one, and ordered the goods to be sent to the spacious warerooms of his firm 59 Market street. The entire lot has now been received, and the sale will commence in the second story of the establishment to-morrow morning and continue for five days only. Catalogues have been printed, containing the number and price of each lot so that no inconvenience will be experienced in making selections. The stock embraces those magnificent Japanese robes and Japanese silks in all colors, and striped, barred, plain and figured. Also gros-grain, Moir Antiques, and black silks in almost endless variety. The prices range all the way from *sixty cents* to *twelve dollars and a half* a yard. At this sale the articles can be purchased at a much lower price than at any subsequent period in the season. It is a splendid opportunity to procure goods in this line at the lowest price, and all should avail themselves of it. See catalogue in another column.

Amusements.

PITTSBURGH OPERA HOUSE.—Mr. Stuart Robson will commence his second week by the presentation of "Little Em'ly," a dramatization of Dickens' David Copperfield. We hope to see crowded houses throughout the week, as Mr Robson is a most meritorious actor and refined gentleman.

OPERA HOUSE.—Opera Bouffe will hold the boards at this house during the present week, with those beautiful and accomplished artistes, the Worrell Sisters, and twenty-five other first-class performers, as its interpreters. Commendation from us of these very clever artists would be superfluous, as the favorable impression made by them at their last visit is still fresh in the memory of our citizens. Manager Beamer, we feel assured, will have overflowing houses during their engagement.

TRIMBLES VARIETIES.—More novelties Manager Aims has added this week another troupe of celebrated artists—the Victorelies—to his already large and talented company. Americus, the musical prodigy of the age, and De Jalma, the man Serpent, have been reengaged and will appear. The mere announcement that these two wonders are still on the bills should alone be sufficient to fill the house.

"DAMAGES, GENTLEMEN, HEAVY DAMAGES."

Wedding Postponed—A Bridegroom Tarrieth—The Court Appealed to.

The District Court, it is expected, will be engaged in a few days with an interesting case of "breach of promise." It is all the result of a wedding postponed indefinitely.

It seems that for some time past Mr. Josiah P. Johnston, from the neighborhood of Elizabeth Borough, has been paying his addresses to Miss Harriet Vankirk, of that place. He was received with favor, and the wedding time was fixed. The interesting hour, as designated by the cards of invitation, found a brilliant company assembled, the mansion illuminated, the feast prepared, the minister in attendance, the bride arrived, and every interesting little detail arranged, but the bridegroom, singularly failed to put in an appearance. After waiting an hour or so the company, among which should be numbered the bride, discovered that the gentleman was not ready; a messenger had found him at home engaged in the pastoral occupation of feeding the cows. No reason was given for his strange (to put it mildly) conduct; cool as an iceberg in January when interviewed by the astonished messenger, he simply expressed his disinclination to take upon him the proposed hymenal yoke.

There was no wedding at the house that night but the scene may be better imagined than de cribed. The end however was not yet The lady aggrieved almost beyond measure, after due deliberation, concluded to invoke the law, which explains the filing of a bill in the District Court, on Saturday against Mr. Johnson, in an action for damages for breach of promise of marriage. The damages are laid at $25,000, "and for this she appeals gentlemen to a high minded right feeling, sympathetic, contemplative honorable jury of her civilized countrymen."

In her affidavit she claims to be "ready and willing to fulfil her part of the contract, and marry the said Johnson." It should be explained, however, that it is necessary to include this in the bill when suit is brought.

The Court will doubtless clear up the mystery in a few days.

CAUGHT BETWEEN WHEELS.

A Pressman Injured—Terrible Accident—An Arm Crushed—Noble Hearted Action.

An accident of a very severe and painful character occurred yesterday morning in the press room of our contemporary, the *Leader*. The press was running, about five o'clock, working off the Sunday edition, when the assistant pressman, Mr. Augustus H. Faller, passed alongside. As he did so the sleeve of his shirt was caught by one of the cogs, and before he could prevent it the arm was drawn between the wheels. The obstruction stopped the press. When Mr. Faller was extricated it was found that the arm was crushed and torn in a horrible manner.

Dr. Le Moyne was summoned as soon as possible, when the unfortunate victim was taken to his home on Mount Oliver.

During the day a consultation was held by Dr. Le Moyne with several other surgeons, all of whom were of the opinion that the man had a chance for his life only in the amputation of the mangled arm. This operation was successfully performed in the afternoon. The patient was in a precarious condition last evening, but it is thought he will recover.

Mr. Faller is about twenty-one years of age, and has been in the employ of Mr. John W. Pittock for the past twelve years. He was always a faithful employe, and highly esteemed by his employer.

Mr. Pittock immediately upon learning of the accident, gave a highly commendable exhibition of that kindness and large-hearted generosity for which he is noted, by securing the services of half a dozen of our best surgeons to attend the sufferer; he further made every possible arrangement for his comfort and relief. Such action attests generous sympathy and fine feeling, of which too much can not be said in praise.

The Fathers are Leaving Us.

Among the sheaves ripe for the harvest, was a good man. W. A. Robinson, aged 76 years, an early settler in North East on the extreme border of the State, in the county of Erie, whither he emigrated with his brother in 1798, from Perry county, Pennsylvania, making the journey on horseback through Pittsburgh to the lakes. A little later he revisited his former home, traveling on horseback over bridle paths more or less difficult and obscure. The old gentleman, in conversation less than a year ago spoke of having crossed the Allegheny river at Pittsburgh on "*O'Hara's ferry.*" Our own father and grandfather were among his cotemporaries of the past century in the first settlement of the county of Erie, having preceded him but a couple of years, he from Perry and they from Northumberland county, in this State.

It has become our painful duty to announce that from private sources we learn that the venerable and good gentleman died, after a very brief illness, at his residence in North East on Friday evening, the 11th inst. Thus suddenly passes away a relic of the olden time, another of the links that have held the past to the present. Some of our citizens will remember the old gentleman, who with his wife spent some days with their sons, the Messrs. Robinson Brothers, bankers of this city, and Col. Robinson, of the firm of Livingston & Co., of Allegheny City, during the past summer, when was celebrated their *golden wedding*. All of their own children, eighteen in number, and numerous grandchildren, were present to do them affectionate and grateful reverence. These children and grand-children can retain only the most pleasing memory of the departed, who during a long life had never been a party to a wrangle or suit at law, but was ever regarded among his neighbors as a peace-maker, often, by his kindly and timely interposition and his well deserved personal influence, allaying a rising storm or angry quarrel between his neighbors and bringing them to a better mind. He was for many years an elder in the Presbyterian Church, and died as he had lived a consistent christian in the confident hope of a blissful resurrection.

Locked Up.

The pleasant weather of the last week seems to have had a demoralizing influence on a good many who are generally pretty correct in their outward deportment. On Saturday night the cells in the Lock-up, in Diamond alley, had forty-seven occupants, of almost all grades of society, from the swell out of luck down to the poor sinner who tried to drown his sorrows in fourth rate whiskey. A sadder commentary on the way of the transgressor could hardly have been furnished than that presented by the appearance of this place of detention on the night referred to. Depraved humanity of every kind found its exponent there. The same narrow limits with the iron grating in front confined the well dressed and the squalid, the drunk and the sober and the thief and the simply unfortunate, with the usual proportion of those who are lost to all the outward semblances which characterize true womanhood. Brought in from the streets, some charged with drunkenness, others with general disorderly conduct, they spent a night in an atmosphere of unwholesome stenches, bred from heat, filth and all manner of abominable uncleanness. Stretched on benches, sleeping the unrighteous congestive sleep of the drunkard or pacing their narrow quarters, they whiled away the hours till morning brought to some sweet release and the fresh early air, and to others that remorse which comes from detected crime and the fear of punishment.

A New Cock-Pit Pulled.

A couple of prominent glass manufacturers and members of Council of the South Side, a few nights ago entered the office of Justice Krehan which was vacant, and finding a couple of fine game birds there, part of the spoils of the recent cock-pit raid, took them out of their cages and improvised a cock-pit in the Justice's office. The cocks went at it with a will, and just in the midst of the fight the Justice returned. The Justice was very indignant that his office should be turned into a cock-pit, and had the gentlemen arrested and fined. Strenuous efforts were made to keep the little affair quiet, but it was too good to keep and leaked out. It is not definitely known now when or where the next descent upon cock-fighters will be made.

Festivities Interrupted.

On Saturday last Peter Saddler, a resident of Spring Garden Avenue Allegheny City entertained a number of his friends at the christening of his child, and while the ceremony was going on Barney Hildebrand, Leonard Fisher and Louis Meyers entered the house and acted in a very disorderly manner. Mr. Saddler ordered them out, when one of them struck him with a handy billy and another with a stone, injuring him quite seriously. As soon as he was able the, injured gentleman repaired to the office of Alderman Arent and lodged an information against the party for aggravated assault and battery. Warrants were issued for their arrest.

Ye Olden Times.

We are wholly unable to supply orders which come pouring in upon us from all sections for the back numbers of the GAZETTE that contained the old time sketches and recollections of Pittsburgh from the gifted pen of our contributor "Rip." Inasmuch as these articles will run through a large number of following editions, and as a new contributor will soon commence his historical account of our city, dating back as far as 1790. we urge our friends to subscribe at once for the daily and they can thus be sure of obtaining all that may be written on our early history as a people. Our new correspondent will open for the first time to public gaze the official correspondence between War Secretary Knox and Major Craig, of Fort Pitt, dating back nearly a century ago, and all transcribed from original documents. Subscribe at once. As we are engaged in the piece-meal history of our city we invite all old citizens to contribute their share of recollections towards the volume. All their offerings will be cheerfully received and, if necessary, edited into good shape for publication and preservation.

An Officer Badly Beaten.

Three roughs on Saturday afternoon attacked Officer Graham on Webster avenue and beat him shamefully. One of the parties engaged in the assault was the notorious William, *alias* "Bull" White, who is charged with having been connected with the robbery of a store on Tunnel street about a month ago. The police have been on the lookout for him since then, but were unable to catch sight of him until Saturday afternoon, when about half-past three o'clock, he approached officer Daniel Graham and said in a boastful manner, "D—n you, you can't arrest me." "We'll see about that," replied the officer, and seized White. Just then two of White's "pals," who were near by, rushed in upon the officer, and they then commenced an outrageous assault upon Graham. They knocked him down and kicked him repeatedly, while one of them—John Minick, it is said picked up a brick and commenced beating the officer on the head with it most savagely. All this time, however, Graham held to his man White, having placed the "nippers" upon him as soon as he seized him. Lieutenant Barker and officers Glynn and Jones, as soon as possible, went to the assistance of officer Graham. One of them took charge of White, whom Graham still held and conveyed him to the lock-up, while the others started in pursuit of the other two assailants. Officer Jones succeeded in capturing one of them—John Minick—but the other escaped. Minick was taken to the lock-up along with White, and they they were both held for a hearing on Tuesday morning. White on two charges—the robbery and assault. Officer Graham was pretty badly beaten, and was taken to his home, where he received medical aid. He will likely make an information this morning against his assailants.

A Theatrical Party Discommoded.

The Worrell Sisters and party, while on their way to this city, met with an unpleasant accident near Rouseville, Saturday. They were driving along a tortorous county road leading from Rouseville to Oil City, where they were to take the cars. About midway between the places named, the unskillful Jehu managed to drive into a rut and overturned the wagon. Females, attendants, trunks and trappings rolled over promiscuosly. Miss Emma Hall, one of the party, received a very painful gash on her forehead and a black eye—nature made it blue. Mr. William Sheldon had an ankle sprained. Mrs. Sheldon's neck was twisted in an uncomfortable way, and the two Worrells were considerably bruised. None of the party were badly hurt, however. They all arrived in the city yesterday afternoon, not materially worse for the slight inconvenience of an "upset."

Attempt to Commit Suicide.

On Saturday night a man named Samuel Miles was arrested on Federal street for drunkenness, and committed to the Allegheny lock-up. For some reason his case was not called up at the morning hearing. About noon yesterday Officer Geary was passing through the lock-up, when the prisoner asked for drink. The officer filled a cup with water, and was about to hand it to him when he noticed a vial in his hand, and asked what it was. The man did not answer but attempted to drink the contents, when the officer grabbed his hand, and a tussle took place for the possession of the bottle, the latter succeeding in capturing it. It was found to be an ounce vial, and had been full of laudanum, but during the struggle about one-half had been spilled on the floor of the cell. The man pleaded hard to have it restored to him, but without success. A hearing will be had in the case this morning.

South-side Teachers' Institute.

The teachers of the South-side reassembled in the school hall on Saturday morning, for the second day of the Institute.

County Superintendent Douchett, occupied the chair, Mr. W. S. Lindsay acting as Secretary.

The Committee on Rules presented a report which was approved.

The institute, in accordance therewith, was then formally organized by the election of the following officers:

President—A. T. Doutett.

Vice Presidents—Dr. H. A. Woods, W. S. Lindsay.

Secretary—Benjamin Jones.

Assistant Secretary—Miss Kate Knowles.

Treasurer—J. McClymonds.

Executive Committee—Dr. E. A. Woods, Miss F. Bevington, Miss M. Beck.

The institute then adjourned till the second Friday in May.

Missionary Meeting To-Night.

Our Methodist readers and all who take an interest in missionary enterprises, should not forget the grand missionary meeting which will be held this evening in Christ M. E. Church, Penn street. If ability in speakers, good music and variety in exercises can make an entertainment successful, this is certain to be one of the most enjoyable gatherings of the kind ever held in our city. The exercises will be altogether under the supervision of ladies—lady officers, speakers and managers; addresses by Mrs. Jennie F. Willing, of Chicago, and Mrs. Dr. Eastlocke, of Philadelphia; Chinese songs by two little natives in costume.

A general invitation is extended to all who may desire to spend an evening happily and in a manner to combine instruction with pleasure.

They Dance to a New Tune.

The Kiralfy troupe of Hungarian dancers, who expected to trip out of town on Saturday night, found a clog in their way in the shape of a legal attachment, issued by Manager Aims, of the Varieties, against their goods and chattels. It appears that Mr. Aims contracted with the agent of the troupe for their services at his theatre, and a similar contract appears also to have existed with the manager of the Old Opera House. Manager Aims paid the car fare for the trip from Cincinnati here, and expended some money in advertising, and as they ignored him and played elsewhere, he concluded to try to recover a part of his investment by legal means. The troupe are now here without their wardrobes and other theatrical gear, and the chances are that this duress will induce them to reimburse Mr. Aims.

The Unterrified.

The Democracy held their primary meetings on Saturday in a few of the wards. No interest whatever was taken in the primarys by the unterrified. A self-constituted committee will to-day fix up the delegates so as to have as many of the wards, townships and boroughs represented as possible. Benton Kerr was busy last week preparing his resolutions, and it is generally understood that he will try and "wring" in something complimentary to General Cass, as a stepping-stone for Governor. The young Democracy, headed by Dan Barr, are opposed to the old Ringers, and are determined Benton and his resolutions shall not go through. Alderman Strain thinks from the present outlook that Kerr's resolutions will not "pass" through.

Runaway in the Cemetery.

Yesterday afternoon a pair of horses attached to a hearse took fright just after the coffin had been removed, and while still in the cemetery, and dashed off at headlong speed and coming in contact with some trees completely demolished the vehicle. We heard that it was the same pair of horses that ran away and broke a carriage to pieces in coming home from a funeral about three weeks ago. If this is the case we think it very reprehensible in their owner, after the experience already had of their untrustworthiness, to hire them out for any purpose, much less to use them on an occasion of a funeral, when an accident might prove so disastrous. The driver escaped unhurt.

Pleasant affair.—A pleasant affair took place in the armory of Company, B. Duquesne Grays on Friday evening last. It consisted in presenting to their Captain a beautifully carved Gothic arm chair, on the back of which was an eagle bearing in its beak a silver shield on which was engraved "To James B. Moore, our Captain." The presentation speech was made by Mr. S. A. Barr and responded to by Captain Moore in one of his happiest efforts.

Noonday Prayer Meeting.—The exercises at the noonday prayer meeting are very interesting at present. This week the meetings are to be conducted by our city pastors. Monday—Rev. F. A. Noble; Tuesday—Rev. J. S. Lemon; Wednesday—Wm. M. Young, D. D. Thursday—W. H. Kinkaid; Friday—Rev. S. F. Scovel; Saturday—Rev. A. J. Rowland. All are invited.

THE Rothschilds are said to have lost from $50,000,000 to $75,000,000 by the result of the Franco-German war. They all believed at first that the French would be victorious; but two weeks after the Germans had crossed the Rhine, they saw their mistake, and made new investments which prevented them from losing thrice as much as they would have done had they not corrected their blunder in good season.

SCIENTIFIC.

A writer from Ceylon says that in the Racket Court at Colombe there are five cocoa-nut trees which have been grown from the same nut. Orrignally there were eight, but three have died.

THE *Medical Gazette* suggests an inquiry whether the common practice of putting up chewing tobacco in lead foil may not account for some of the numerous cases of lead poisoning not traced to any recognized source.

THERE seems now hardly any doubt that all wines, even those of the oldest vintage, contain some sugar. This view is fully confirmed by the chemical examination, by Dupre and other European chemists, of wines of every vintage and country.

THIRTY-SIX earthquakes occurred during 1870 at the Austrian town of Fiume, on the Adriatic. The most violent shock was felt on the 1st of March, and it rendered forty houses, out of the one hundred and fifty which composed a neighboring village, totally uninhabitable.

A WEAK solution of sulphate of aniline is used for detecting the presence of wood fiber in paper. One drop of the liquid on a pointed glass rod applied to paper containing such fiber, even in minute quantities, if prepared in a mechanical way, will produce an intense yellow color. This reaction does not take place when the wood fiber has been chemically prepared,

NOTWITHSTANDING the tremendous velocity of the wind in great storms, the onward progress of the storms themselves is comparatively slow. Buchan, in his work on meteorology, states that a West Indian hurricane moves forward at the rate of only fifteen miles an hour, and that the highest speed of European storms is but forty-five miles an hour.

A TIGRESS has been shot in India by Colonel Christie, an English officer, while she was forty feet from the ground, in a tree. It has been strongly asserted that a tiger, when in danger, does not take to a tree, though one be at hand, and that even in floods he seeks only the lower branches; but although the fact above stated has given rise to much discussion, and is said to be unprecedented, *Nature* states that it is authentic.

AN examination of a kingfisher's nest by Prof. Duns, of the Royal Physical Society of Edinburgh, confirms the popular impression that kingfishers employ the bones of the fishes which they capture as material for constructing the lining of their nests. He says it is evident that "the bones of small fishes are as truly the lining of the nest as feathers are of the nests of many other birds." This evidence appears to settle a long mooted point

THE Brussels Museum has lately been enriched by becoming the posessor of the finest specimen of the mammoth out side of St. Petersburg. The skeleton was found some time since, in Belgium, and is almost entire. The Russian capital, however, boasts a whole gallery of mammoths, in the geological portion of its museum; and the collection is the best in Europe, not only in numbers, and in the remarkably fresh state of preservation of the specimens, but from the fact that it contains many nearly complete skeletons.

THE fishes which inhabit mid-ocean are quite distinct from those which abound on the coasts, and although not nearly so numerous, many of them are very remarkable for their brilliant colors. Professor Giglioli, who was the chief of the scientific corps of the Italian frigate Magenta on her voyage around the world, gives an account of their great beauty, he says, it is difficult to describe. When first taken from the water, a thousand different tints of deep azure blue and golden yellow sparkle over its body, which, however, upon the death of the fish, fade with surprising celerity.

SEVERAL eminent men of science, in Paris, had narrow escapes from death by the Prussian shells during the seige, among them Abbe Moigno, the editor of *Les Mondes*, who was slightly hurt by glass broken by a shell, and M. Milne Edwards, into whose private apartment another shell made its way. It is said that while M. Levasseur was lecturing in the College of France, a bomb fell into the court-yard. The young professor was not at all disturbed, although portions of the projectile broke through the college windows. He went on with his lecture, simply remarking. "Those who fear such things have only to leave the place."

VON PETTENKOFER has experimented with an oak tree during one season to ascertain the amount of evaporation from its foliage. The number of leaves on the tree was estimated at 751,592. The rate of evaporation was found to increase from May to July, and the total amount of the evaporation was found to be eight and a half times more than that of the rain-fall. The excess must be drawn up by the roots from a great depth, and thus trees prevent the gradual drying of a climate by restoring to the air the moisture which would otherwise be carried off by drainage. This experiment clearly shows how climatic changes have been produced by planting trees.

Career of a Speculator.

The New York *Sun* gives a long and extremely interesting history of Henry Meiggs, the great railway king of South America: He was born in Catskill, Greene county, New York, in 1811, and, after a not striking career in business at the East, went to New York city and amassed money in the lumber business. In 1849 he loaded the ship Niantic with lumber, and, with his brother John G., sailed for California. He there embarked in an immense lumber trade, built Masonic Hall, lavished thousands on music, bought land all over the State and amassed a fortune. But in the panic of '54 he went under and in the frenzy of the day issued forged paper to the amount of near a million. As his crime became apparent, he bought a bark and sailed to Valparaiso. There he became superintendent of bridges on the railroad building to Santiago, and, after the failure of the English firm to complete the road, assumed the whole contract for $12,000,000. The engineering difficulties were immense, but he did not fear, and made a supplementary contract with the Government that for every month under four years in which he completed the road he should receive $100,000, and for every month over he should forfeit $100,000. He began on the 4th of July, 1858, and hiring Chillian laborers at 10 cents a day and their food—3 cents more—he tunneled and blasted his way through the huge rocks, and on the 4th of July, 1860, the road was complete, and on the 5th the first train was run through to the capital. Meigg's profits were $1,326,000, and might have been $3,000,000 but for his boundless generosity to the poor. He built two grand dwellings costing $850,000 at Santiago, and there lived till 1867. He was induced by the call of the Peruvian Government to go to that country in the latter year and build a road from Arico or the coast to Arequipa, ninety miles inland for $12,000,000. It was completed by the first of the present year, and Meiggs had $600,000 worth of medals struck in commemoration, and gave a $200,000 *fete* at Arequipa. His profits were $4,000,000. He now has a contract to build a road across the Andes, for $65,000,000 and lives in magnificent state at Lima. He owns several guano islands on the coast, and is prospectively the richest man on the globe.

The Chinese.

The *Hoosac Valley News* referring to a statement in the Springfield *Republican* to the effect that "Mr. Sampson, finding his Chinamen unequal to the amount of work he wants done, is trying to hire forty-eight white men, offering to furnish a separate room, as they refuse to work with the Celestials," says: "We beg leave to inform the *Republican* that the above statement is erroneous. Mr. Sampson finds his Chinamen more than equal to the amount of work he wants done, and is making more shoes at the present time than he has ever produced before with the same number of bottomers. He has not tried to hire forty-eight white men, but has had innumerable applications for work by men who have expressed no unwillingness to labor in the same room with the Celestials, or anywhere he should see fit to place them. One hundred and twenty cases will be made at his manufactory this week, one hundred and five cases being the largest number he has ever before produced in one week."

Shad.

The report of the Massachusetts Commissioners of Fisheries for 1870 is out. It confirms the highest hopes of the advocates of artificial breeding. By estimate sixty million of young shad were hatched, and turned loose at Hadley Falls in 1860. In 1867 Seth Green worked a month in the same waters, and sent out many millions. These, it is assumed, returned last year, when the catch was larger than had been known for many years. They are expected in still greater abundance this year. Next year we will see the fruits of Mr. Green's labors in Hudson, if the murderous small mesh nets do not slaughter the fish before they reach maturity. By the process now adopted, there is no reason why one or five hundred million of young shad should not be sent out every year in the Hudson—rendering this delectable fish as abundant if not as cheap as when they were caught to manure the land on the river's borders.—*Albany Journal*.

Girls' Boots and Shoes.

In Dio Lewis' very entertaining and instructive work, *Our Girls*, just published by the Harpers, we find the following suggestions in regard to women's shoes, which ought to be read and heeded by every woman. He says:

One evening, at Lexington, I was discussing before the assembled school the subject of shoes for women, and had been remarking that the soles were uniformly too narrow, when Miss B. spoke up:

"Why, Doctor, my soles are perfectly immense. Why, they are twice as broad as my foot."

"Miss B., will you be kind enough to take off one of your shoes, and send it forward?" It was cheerfully and quickly done.

"Henry, please bring the rule. Now we will measure this sole."

"Miss B., I find that this sole is two and one-half inches wide; do you think your foot is narrower than that?"

Oh! a great deal. That shoe sole is twice as wide as my foot.

"Miss B., will you please come to the platform a moment?" So, limping along, one shoe off and one shoe on, she presented herself.

"Miss B., will you be kind enough to put your foot upon that sheet of white paper? Now hold up the other foot, and let your full weight press upon this one. There, now, hold still a minute, and let me draw the pencil around your foot. There, that will do. Now we will measure this mark, and see just how broad your foot is. Why, Miss B. I find that your foot is three inches and three-quarters broad—no, stop, it is three inches and seven-eighths; no, stop again, it really is four inches broad. Now what do you think? You may take the rule and measure yourself if you doubt it. The sole is two inches and half and your foot is four inches broad."

"But, Doctor, it is four inches broad only when it is spread out by standing my whole weight on this one foot."

"Yes, Miss B., but that is exactly what takes place every time you step. For example, when in walking, you lift the right foot and push it forward, your whole weight is not only on the left foot, but, pushing with the left foot in propelling the body forward, you have in addition to your weight upon that foot, the effort of pushing forward with it, which makes the toes still broader, and that takes place every time you step. So I presume when you are walking briskly, that if your foot were at liberty to spread, it would reach four inches and a quarter. The shoe sole, which you think is immense, is two inches and a half wide. Now what do you suppose becomes of the inch and a half of foot which has no sole to rest upon? Either the upper holds the foot and prevents its spreading, or presses down upon the edge of the sole. Very few girls walk in a firm, strong way. Notice one. You can see that she is balancing upon a narrow sole. There is an unsteadiness, a sideways vibration. Besides she has not breadth of toe enough; she cannot push her body forward in that elastic way which we all so much admire. Again, the pressure of the upper checks the circulation in the foot and makes it cold. If you check the circulation in any part it becomes cold. The tight shoes, with an elastic worn about the leg just below the knee, so checks the circulation in the foot that the great majority of girls have cold feet. It would indeed be rare to find one with warm feet like a boy's."

The Hohenzollerns.

The New Imperial House of Germany, it is stated, can be traced back to a certain Count Frederick Von Zollern, who was a favorite of the Emperor Frederick I, and through his patronage was in 1180, married to the daughter and heiress of the Burggrave of Nuremburg, and, in 1192 was publicly installed as Burggrave, an office which continued in the family for six succeeding generations. The Burggraves were faithful servants to the Emperors, and entered into their secret and confidential schemes. The Emperor Sigismund took particular interest in Burggrave Frederick, and made him his chief agent in the plans for restoring the full power of the Roman Empire, and part of the design was to be effected by constituting Frederick King of Rome. This project was not carried out; but as a preliminary move the Burggrave, in 1415, was invested with the Marquisate of Brandenburg, with the rank of elector. In May, 1417, Frederick I was installed as the first elector, and the House of Zollern, or Hohen-Zollern, as it came to be called, was transferred from South to North Germany, and became the chief defenders of the Empire against the aggressions of the Sclavonic tribes. By treaties and wars the border land was enlarged, and on January 18th, 1701, Frederick III crowned himself at the palace at Koenigsburg, and declared himself King of Prussia. After an increasing struggle of 170 years the Kingdom of Prussia has extended its boundaries, and become an empire and the most powerful nation on the Continent of Europe.

A Strange Illness--Moonstruck Fish.

[From the Oswego Advertiser.]

On Saturday last, a family residing on the East Side, consisting of five persons, were taken suddenly and severely ill, the symptoms being similar to those experienced from the action of some violent poison. The physician who was called made inquiry as to the food which had been partaken of by the family during the day, and, on being informed that they had eaten cured salmon trout, he immediately pronounced their illness the effects of poison from moonstruck fish. He explained that fish are thus rendered a dangerous article of food by being exposed to the light of the full moon while dying, and he had notad numerous cases of illness with precisely similar symptoms, originating from that cause, in Scotland and some other countries.

The illness produced, though rarely fatal, is very severe, and its effects continue for some days. The common symptoms are headache, nausea with severe and exhaustive retching, heat in the face and head, and a sensation as of the head and face swelling greatly, and not unfrequently attended with delirum. Persons who have any desire to experience the effects of this singular illness, can gratify their curiosity by simply exposing freshly caught fish of any species to the rays of the moon for a short time, and the indulging of their appetites thereon. The family in question were still quite ill yesterday, but all exhibited signs of improvement.

A Practical Joke.

The *Congregationalist* has an anecdote A few days ago two young men went from Massachusetts to Hartford to make a visit. They were excellent in every way, and carried little religious cards in their peckets with suitable mottos, in order to sow seed by the wayside. They were very anxious to see Dr. Bushnell, and yet did not feel bold enough to call on the great man. The relative whom they were visiting, was engaged in one of the banks, and told them that the doctor was in the habit of dropping in there pretty often; and that, in fact, he must come in soon, as there was some money awaiting him. One morning, while the two were in the bank, thinking that perhaps the Doctor might happen in, an elderly man with a felt hat put on rather slouchily, a grayish black suit, a big oak walking stick, and the air of a well-to-do and bluff, outspoken farmer came in as though he belonged there, and received a thick roll of greenbacks from the cashier. They had that vile smell which money much handled gets, and the old gentleman (it was Dr. Bushnell) began in his sharp way to jerk out something about this "filthy currency," and to stigmatize it with terms a good deal more forcible than elegant. The young men looked at the elderly one with a good deal of commiseration, and overhauling their religious cards, picked out one, and approaching him, put it into his hand. It contained the words, "Are your thoughts sure?" What the doctor thought can hardly be imagined, but we can conjecture what the young men thought, when their friend came out from behind the counter, unconscious of what had passed, and introduced them to the Rev. Dr. Bushnell, of whose piety they had heard so much, and whom they so greatly desired to see. History drops the veil on the scene at just this point.

A Laughable Dog Story.

Living on Cottage Grove avenue in this city, is a doctor who has a valuable and favoaite terrier. A few days ago the dog, while playing with the child of a saloon-keeper in the neighborhood, bit the youngster and then darted homeward. The child raised a hullabaloo, and his father's wrath was unbounded. He repaired to the residence of the doctor and told him that the offending dog must be killed The doctor objected and the saloon-keeper, in a towering rage, went to Sergeant Tom Barret, who directed him to procure a magisterial warrant to have the dog slain. The document was obtained, and was thrust under the docter's nose. The doctor discovered that his canine friend would have to die, and the matter caused him much grief. He, however, promised to the saloon-keeper that he would show him the inanimate body of the dog in a short time. Half an hour afterward the doctor appeared in the saloon holding the apparently lifeless body of the dog by the hind legs, and threw him carelessly on the counter. He asked the saloon keeper if he was satisfied, and received a response in the affirmative. The parties then took a drink, and the saloon keeper expressed himself as deeply obliged to his medical friend, and said that he always knew "he was a white man." The doctor again took the dog by the heels and left the place. Nothing more was said of the matter until yesterday, when the saloon keeper was startled almost out of his wits by the sudden apparition before him of the "dead dog." He told everyone about it, and it soon transpired that the ingenious doctor, instead of killing the dog, had merely given him chloroform. The saloon keeper acknowledged himself sold, and stood drinks for a large crowd of acquaintances.

A Natural Curiosity.

Silver Spring, Florida, is one of the greatest curiosities in the South. It bursts forth in the midst of the most fertile country in the state. It bubbles up in a basin near one hundred feet deep and about an acre in extent, and sending from it a deep stream sixty to one hundred feet wide, and extending six to eight miles to the Ocklawaha river. In the spring itself fifty boats may lie at anchor—quite a fleet. The spring thus forms a natural inland port, to which three steamers now run regularly from St. John's making close connections with the ocean steamers at Philadelphia. The clearness of the water is truly wonderful. It seems even more transparent than air; you see the bottom, eighty feet below the bottom of your boat, the exact form of the smallest pebble, the outline and color of the leaf that has sunk, and all the prismatic colors of the rainbow are reflected. Large fish swim in it, evrey scale visible and every movement distinctly seen. If you go over the spring in a boat you will see the fisures in the rocks, from which the river pours upward like an inverted cataract.

THE following resolution was recently introduced and adopted in the County Court at Nashville: "Resolved that the portrait now placed over the chair of the Judge of this Court, and purporting to be the likeness of the father of our country, General George Washington, but which looks more like the Jack of Clubs, be removed from this hall, and Court House Commttee be authorized to procure a true likeness of the pure patriot, George Washington, put in its place."

A MILWAUKEE man, crazy with drink, reeled into the house while the funeral services over the dead body of his child were being performed, on Saturday last, drove the mourners from the room, and, seizing the candles burning at the coffin, threw them into the stove. Then he dragged the body out of the coffin, and catching it by the feet, was upon the point of hurling it through the window, when the neighbors hurried in and overpowered him.
